

DRAWING IS A PAIN

DrayJay Draws Fitness

FOR MATURE AUDIENCES

When you draw something, always remember that there will always be someone somewhere who will somehow find a way to become offended by your work. Use this knowledge to motivate yourself. Let it fuel your spirit. Take joy in the thought of keeping certain people awake at night with troubled thoughts of your insensitive nature. Embrace their disapproval. It is delicious.

Quick clean lineart is applied.

Here we have Fox wearing some variation of the Zero suit. Which looks an awful lot like something women could wear at the gym with no problems.

I gave Fox the underboob. Since this character is being drawn in ways that are... unusual. (mostly due to popular demand and viewers like you!) we might as well push things to an unholy extreme. Samus wears this outfit far more conservatively.

Maybe I'm contributing to the unfair stereotype that foxes are sluuuts.

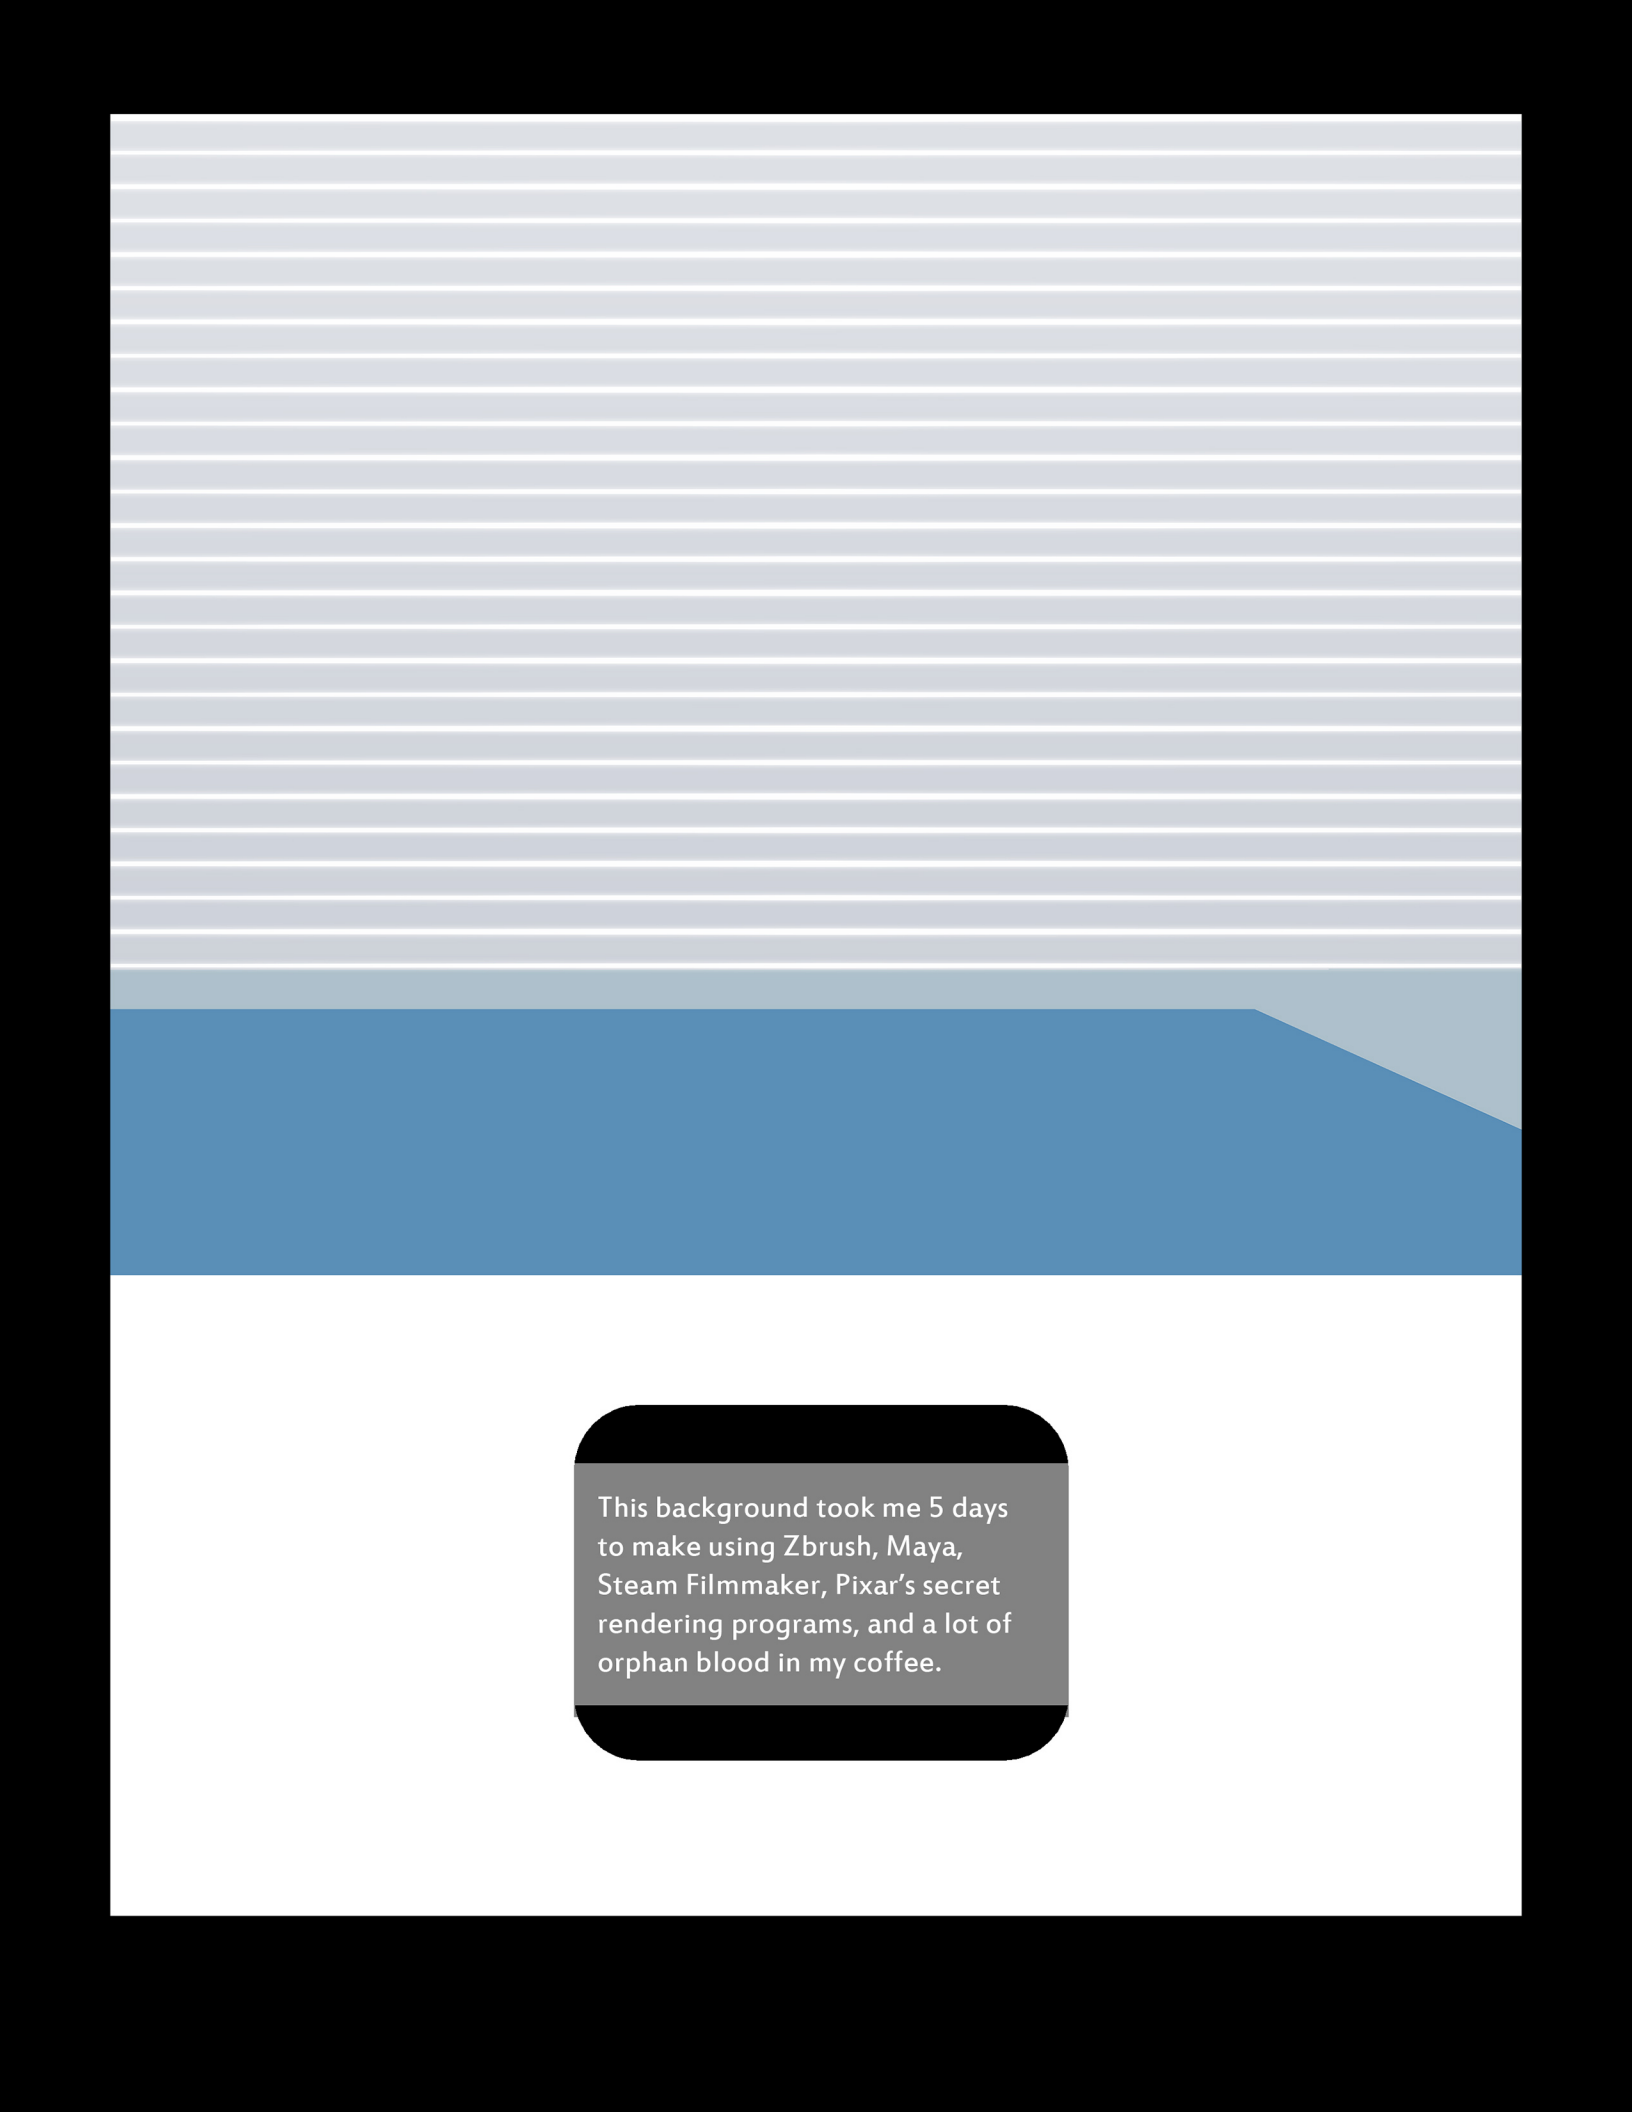

Shading and highlights. I intentionally gave wii fit trainer a different shading style since she has a really unique cell shaded look to her.

... But I completely forgot to give the wii fit trainer armpit hair. Smooth armpits are oppressive.

She also needs to stop fat shaming me with her thin privilege "fit" agenda. I get triggered every time I see her flat tummy. I should've drawn her 100 pounds more beautifully.

This background took me 5 days to make using Zbrush, Maya, Steam Filmmaker, Pixar's secret rendering programs, and a lot of orphan blood in my coffee.

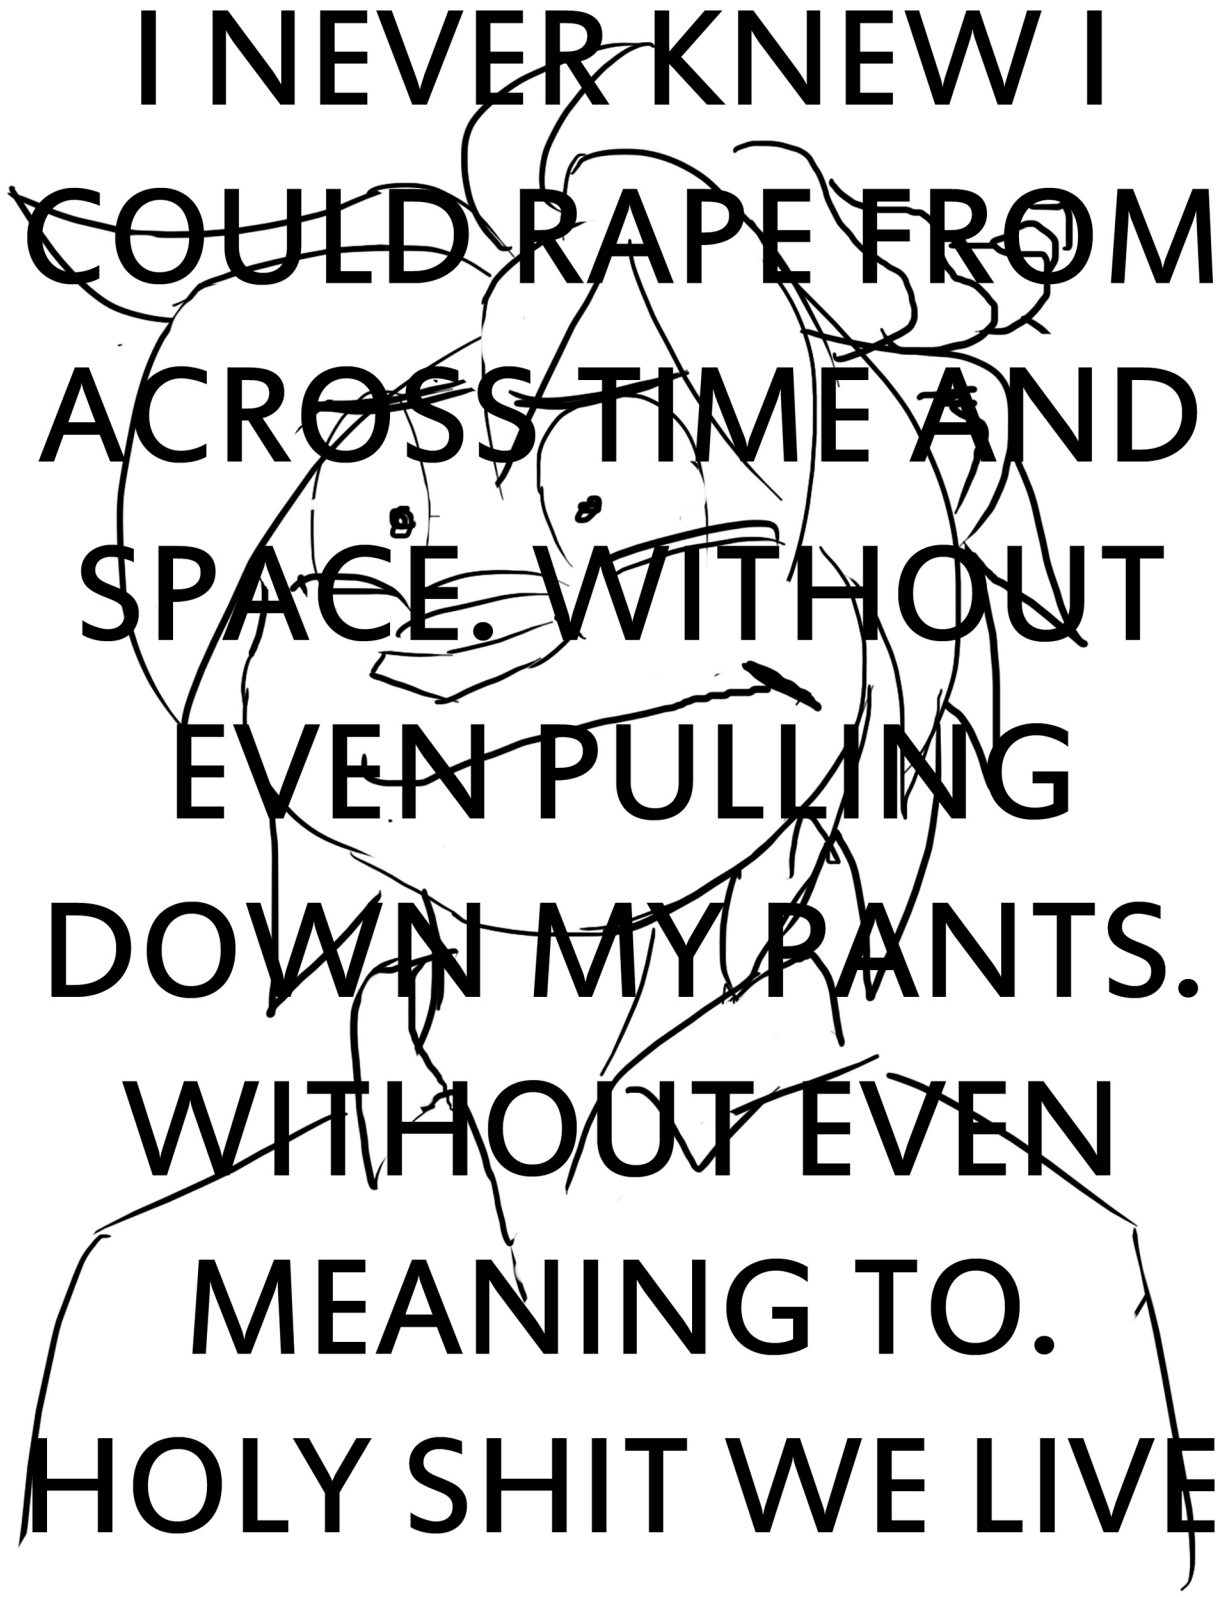

Trigger Warning: oppressive high heels, exercising, fat shaming via depiction of exercise, ponytail, cleavage/dramatic breast size, horizontal lines, bloom effect, slut shaming, eyebrows, rape culture, Videogame Characters, The color Orange, bare midriff/objectification of women, blue exercise mats the oppressive misogynistic glow of your own computer screen, lack of minorities, sweat, bare feet, form fitting clothing, hands closed into fists which can bring thoughts of violence, Invisible rapists, apathetic artist work.

I wonder if Fox can fold into a morphball now.
