

A Lovely day on the beach

Sally woke up to a rumbling sound. "No! No, no, not that stupid volcano!" In a hurry, she stuffed a few important things together, before she took a look outside her improvised hut. The young girl had just discovered this hidden, tropical paradise and decided to live as a dropout for a while. She had grown tired of the noises and lights of Tinora, so she felt like she had won the lottery as a friendly Avox she knew from school showed her this lonely place in the middle of nowhere.

As Sally stepped outside her hut, she saw the giant rumbling mountain right in front of her. Dark clouds gathered around its top, but strangely it seemed, that the smoke did not come from inside the volcano. It revolved and thickened around the Mountaintop, as if some kind of magnet was drawing it from the sky. It took her a moment to realize that it wasn't smoke but dark clouds that gathered above her. In disbelief, Sally saw the sky turning darker and darker, as snow started to fall. A weird blueish light was glowing at the top of the volcano, like if someone - or something - had installed a pulsing, weather-changing machine on her tropical island, that was slowly turning into a frozen desert.

"Hey! What are you doing here?!" Someone yelled from afar. Afraid, Sally turned around, as she saw two -obviously non-human- creatures running towards her. Both of them seemed to be covered in an almost black skin, their heads looked dangerous and feral and they came closer and closer.

In panic, Sally dropped all the things she had grabbed and started to run. After a few seconds, she had reached the beach and started to follow along the water in the hope to find a good spot to disappear in the forest again.

"Stop! This is Acora territory! What are you doing here?" one of the creatures yelled "Everything on this island belongs to the Acoran Kingdom, you are not allowed to be here!" Sally tried to run faster and faster. she took a quick view over her shoulder and saw both creatures slowly catching up. "Fuck you! What are you doing to this place? I live here, its my home and I wi... Ouch!"

Something had stung Sally in the neck. In reflex, the young girl reached below her ear. A tiny, white thorn had pierced through her skin.

"Sorry, this was the only option to stop you!" someone yelled from behind, as Sally's steps became more and more clumsy and insecure. A weird heat was rushing through her body, as her elegant sprint turned into a stumbling walk.

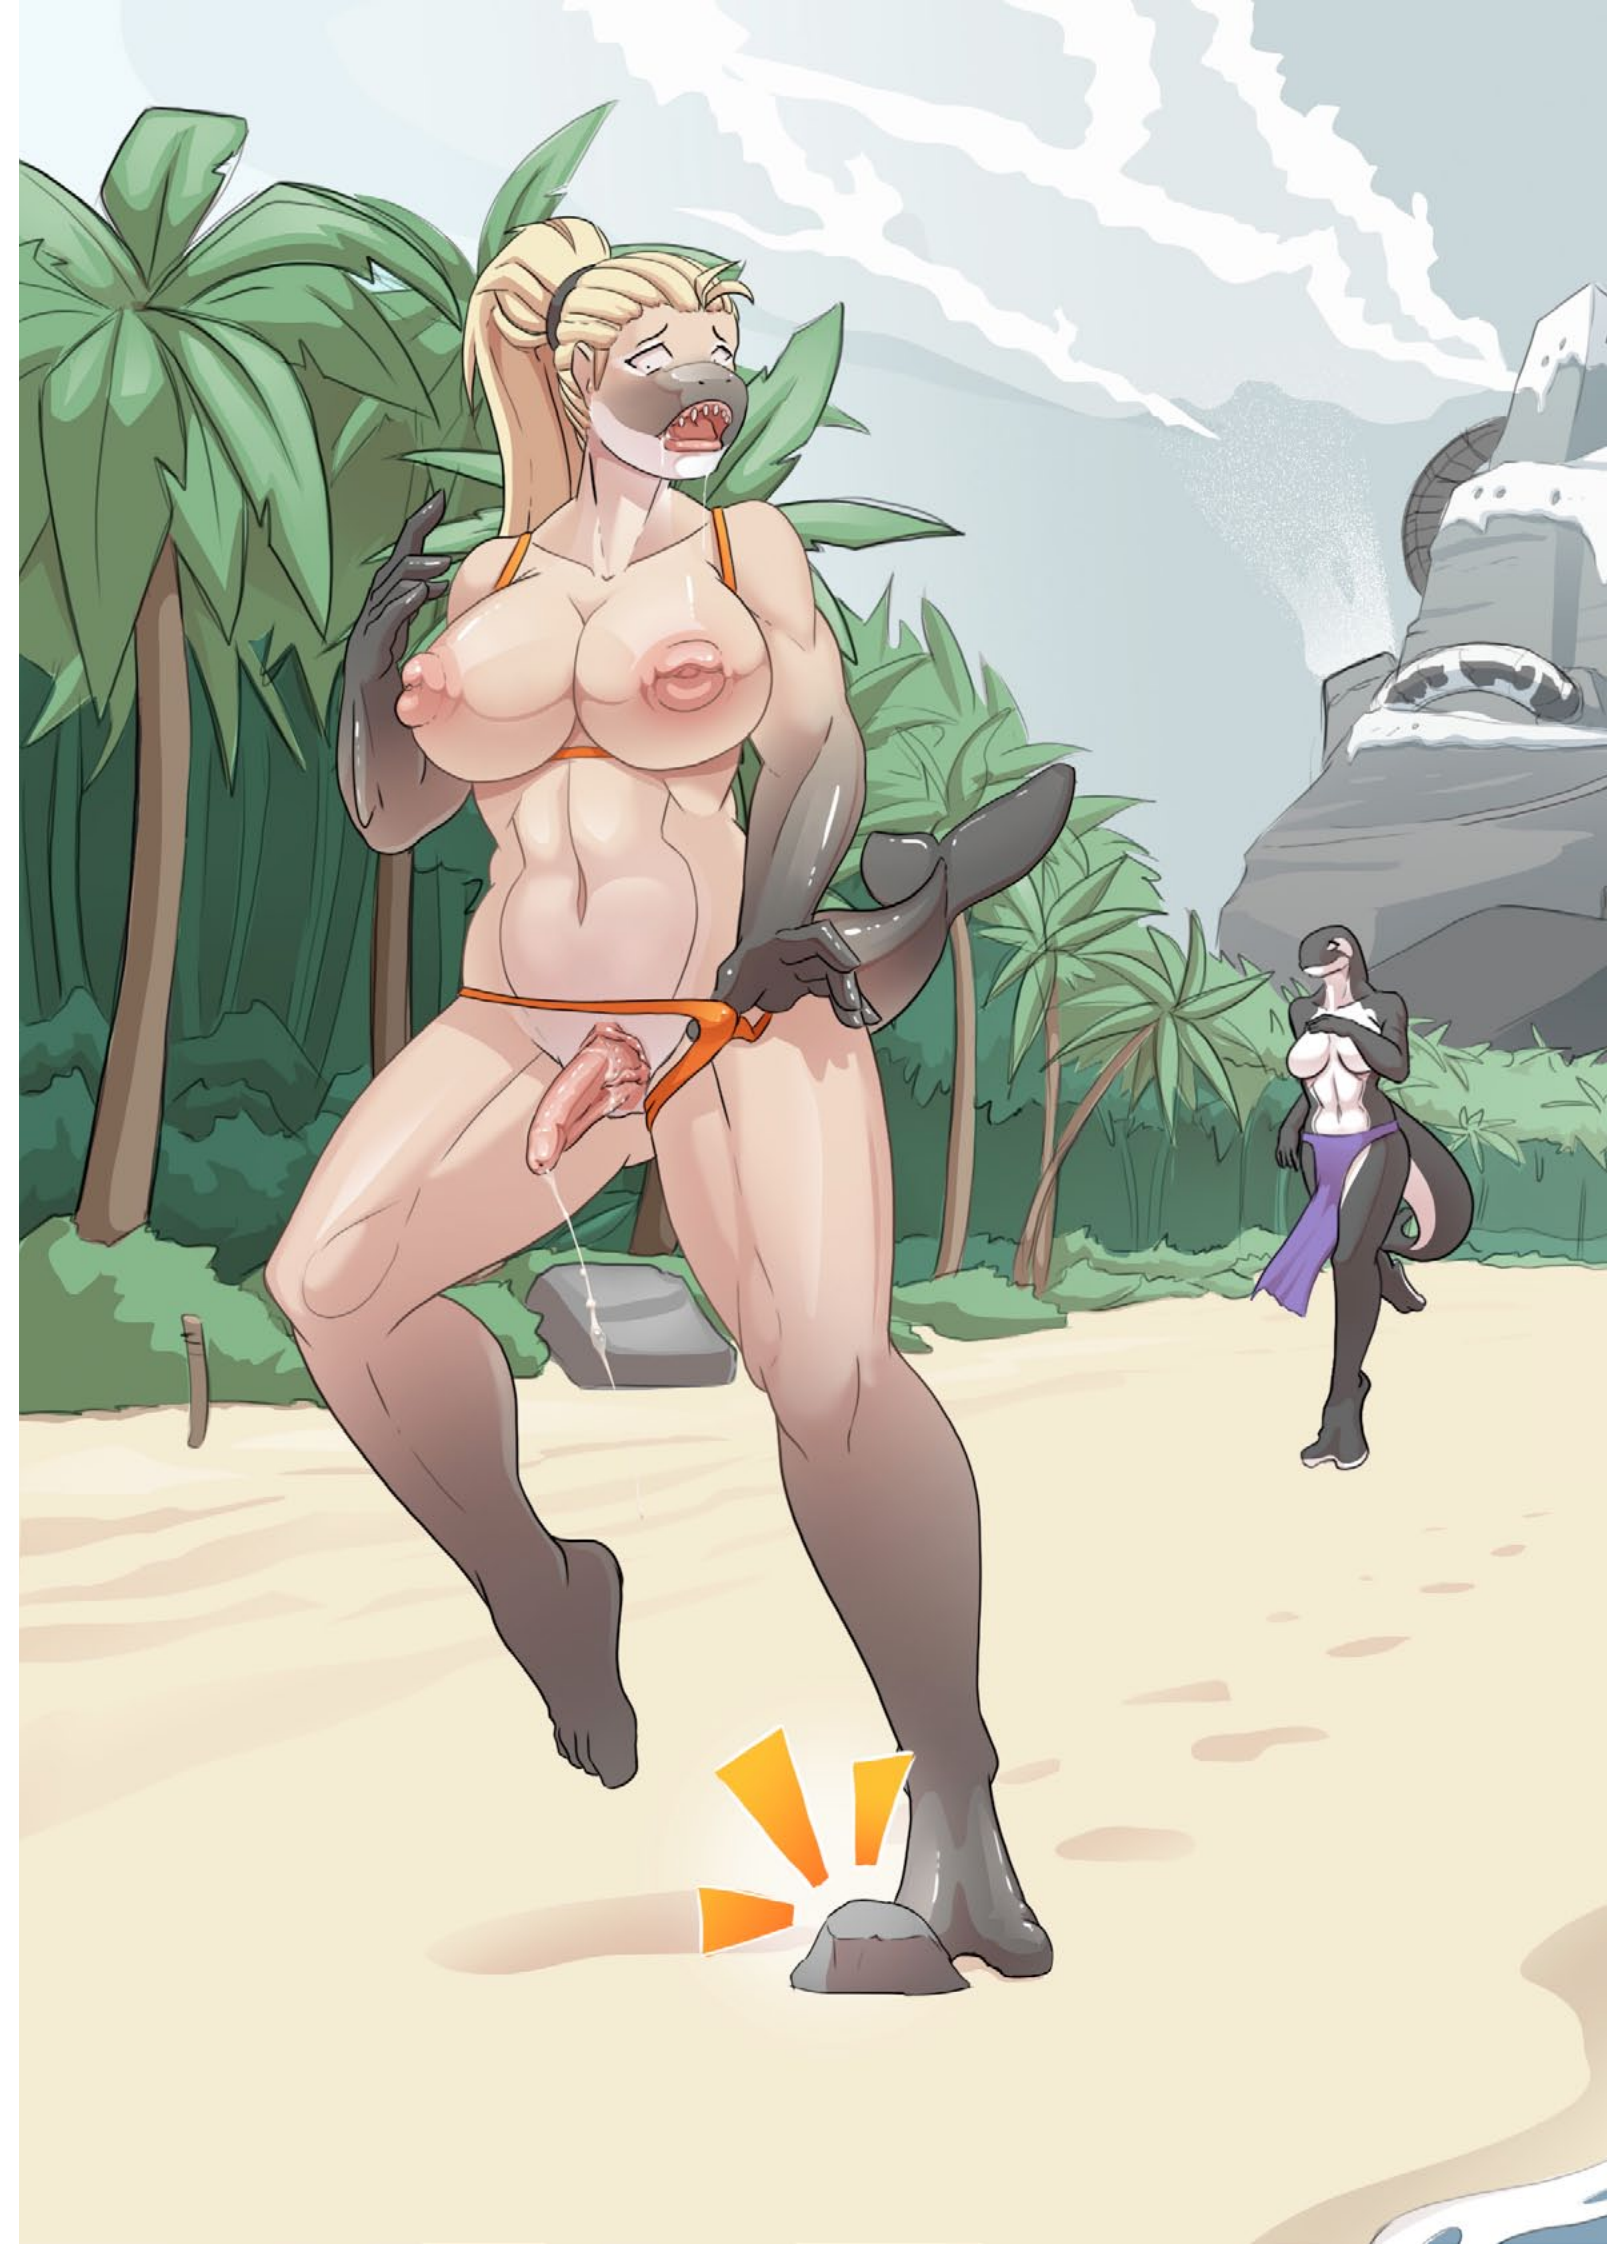

A Lovely day on the beach

In horror, Sally saw why she had become this slow: One of her feet had turned into a weird two-toed foot, covered in a slimy, glistening skin, that seemed to slowly spread and crawl up her thigh. The more she tried to run, the more she felt a weird sensation between her legs, like if something thick was rubbing over the insides of her thighs. She moaned, as her face elongated and the same kind of weird skin started to appear around her forming snout -what had these weird creatures done to her body??

Sally stumbled onwards as her back started to feel weird. right above her butt, she felt a weird sensation, as she suddenly felt way more agile on her new digitigrade feet. Her whole body seemed to bend from her pelvis, as the thick, black tail grew out of her back. The fabric of her tight bikini caused an almost unbearable pressure on her chest and crotch, but she was still trying to escape.

"What are you doing to me?!" Thick strands of viscous saliva dropped out of her elongated mouth. With her tongue, Sally felt the sharp teeth that had grown out of her gums while her eyes looked in disbelief on her already black arms. She looked further down her running body, as she finally saw what was causing this swollen, rubbing feeling in her crotch: Every time she pulled one of her legs forward to run, a massive bulge in her bikini started to bounce off her stressed thigh. Filled with disgust, Sally carefully pulled back the string of her thong to see what was hidden underneath, as a thick, dripping penis slipped out.

with the remainings of her vulva still visible, the throbbing inhuman cock drooled thick strands of pre into the wind. At the same time, Sally's Bikini-top wasn't able to hold the pressure anymore. Her huge tits slipped out of the thin fabric and started to bounce. Her once small human Nipples had turned into quite big, inverted nipples that glistened in the remaining sunlight "You made a monster out of me!" Sally started to scream. Almost blinded by tears, she stumbled over a small rock, that was lying in her way.

A Lovely day on the beach

"Come on, its not so hard." A female voice said as Sally finally picked herself up "You will be one of us now, even when Nora kinda shot the wrong dart it seemed" She snickered. "Listen, this Island is ours now, and we have to colonize it. We went almost extinct, during the turbine wars and I guess the Nariok had a guilty conscience. You can be proud to be one of us now, we will have a great time, I promise!"

Sally was kneeling on the sand as she was trying to figure out what happened to her face. Her whole body was covered in dark whale-skin by now and her fingers slipped inside her massive jaws. Hot saliva was flowing over them, running down her chin and dripping down onto her snow-white breasts. Her pussy had turned into a giant cetacean penis that was throbbing in her hand.

The Orca girl came closer from behind: "Ahw, well, I see, you already got excited, are you? I bet you can't wait to see a very special part of me, huh? Come closer hun, I will show you..."

Sally was fighting. She didn't want to see that creatures nethers. It felt wrong. She was human and she was a GIRL after all!

The sweet smell of female arousal touched Sally's nose - wow, it smelled that good?... maybe she.. NO!

Slowly, the female started to pull down her clothes. Just a few centimeters away from Sally's face, she revealed her moist, swollen pussy.

"Wow" Sally gulped. Before even being aware of what she was doing, she closed her eyes and started to slightly push her new snout between the girls tights. The tip of Sally's maw was gently stroking over the wet, slimy mons, as her nostrils drew in the sweet smell of the female orca. Aroused, Sally carefully let her broad tongue slip over the tight, slimy slit. She almost came as she tasted the arousal of the swollen orca-pussy on her tongue. Greedily, she started to push her tongue deeper into the tight slit like she was digging for more of the tasty liquid. A loud smacking was filling the air, as Sally started to mindlessly ate more and more cuntjuice from the now dripping, swollen sex. Half of Sally's snout was covered in a thin film of female pre, as her snout drilled deeper between the girls tights. "Wow, for a girl, you changed your mind about pussies really fast huh?" The Orca moaned. "Do you enjoy eating out my tight sweaty slit you little slut?" Sally moaned back, still pushing deeper into the wet, naughty opening.

A Lovely day on the beach

"Sorry, you are a good girl!" The Orca snickered. Look at your member down there, it seems to be pretty excited to meet me, too! Maybe it will get even more excited when..." the female pulled back Sally's snout and moved in front of her. Slowly, she bended forwards while she was lifting her tail up. "...It can really see what it can get"

The tight slit of the Orca girl was overflowing with thick pre and spit, which was just too much for Sally. Her brain and body was overflowed with endorphines, as she mounted the girl in an instant. Her thick cetacean cock played with her slimy, tight labia before she slipped inside a girl for the first time in her life. It felt wonderful and fitting, warm and inviting. With every thrust of her hips, Sally saw her erected cock drill deep inside the girl, spreading her outer labia around her massive dick.

She could get used to this, and it REALLY wasn't that bad!
