any one home?

hi can i help you?

yes is this
josh crade porten

can you
come
with me
for a bit ill
explain on the way

yes

ok

so josh before i start talking you have any questions?

well lots like who are you?

im neecra i work links

links?

yes i work links from 44FY to HI16. mental links that is

44FY HI16 whats that

its a label for your world and another 44FY is yours

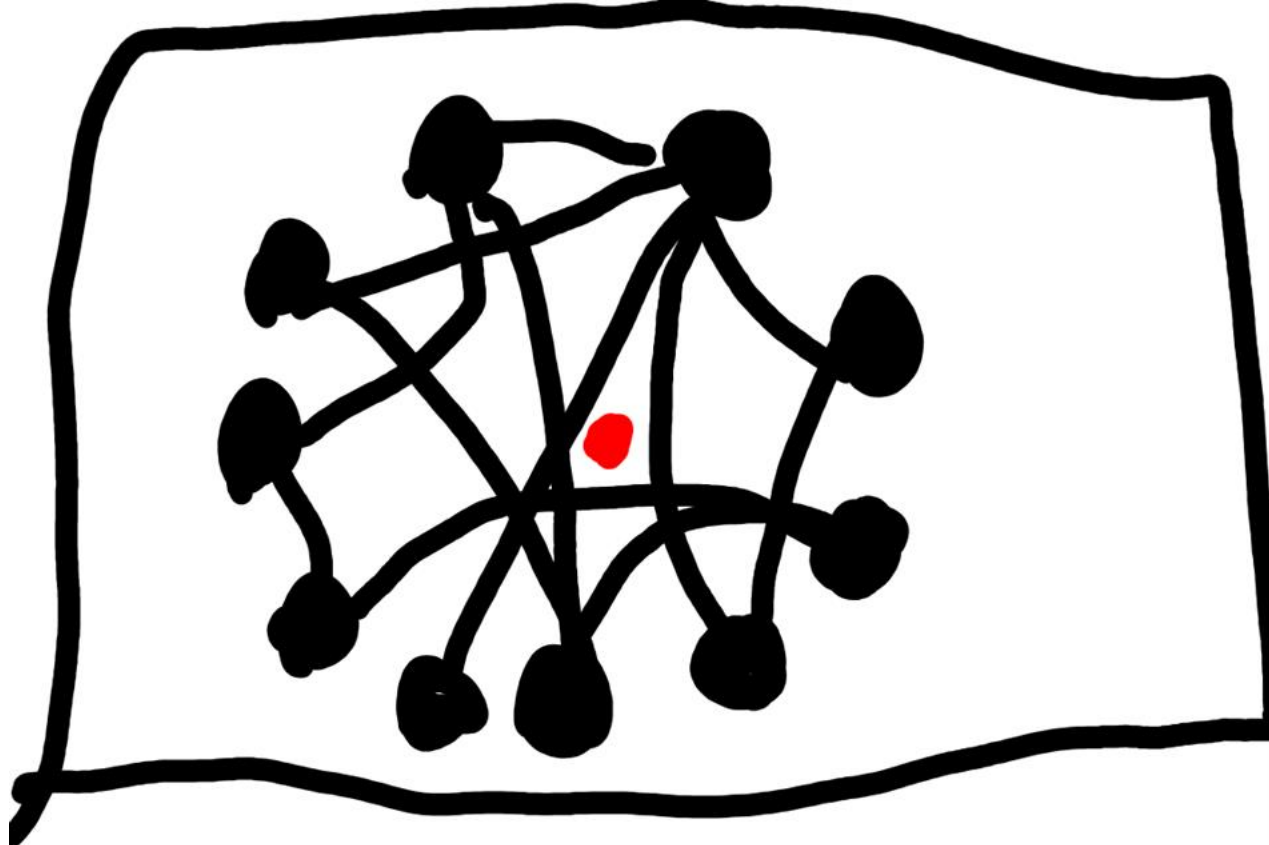

so world what do you mean and still WHAT ARE YOU?

give me a bit ill explaine it all and where you are needed ill start with what i am and then the worlds then links

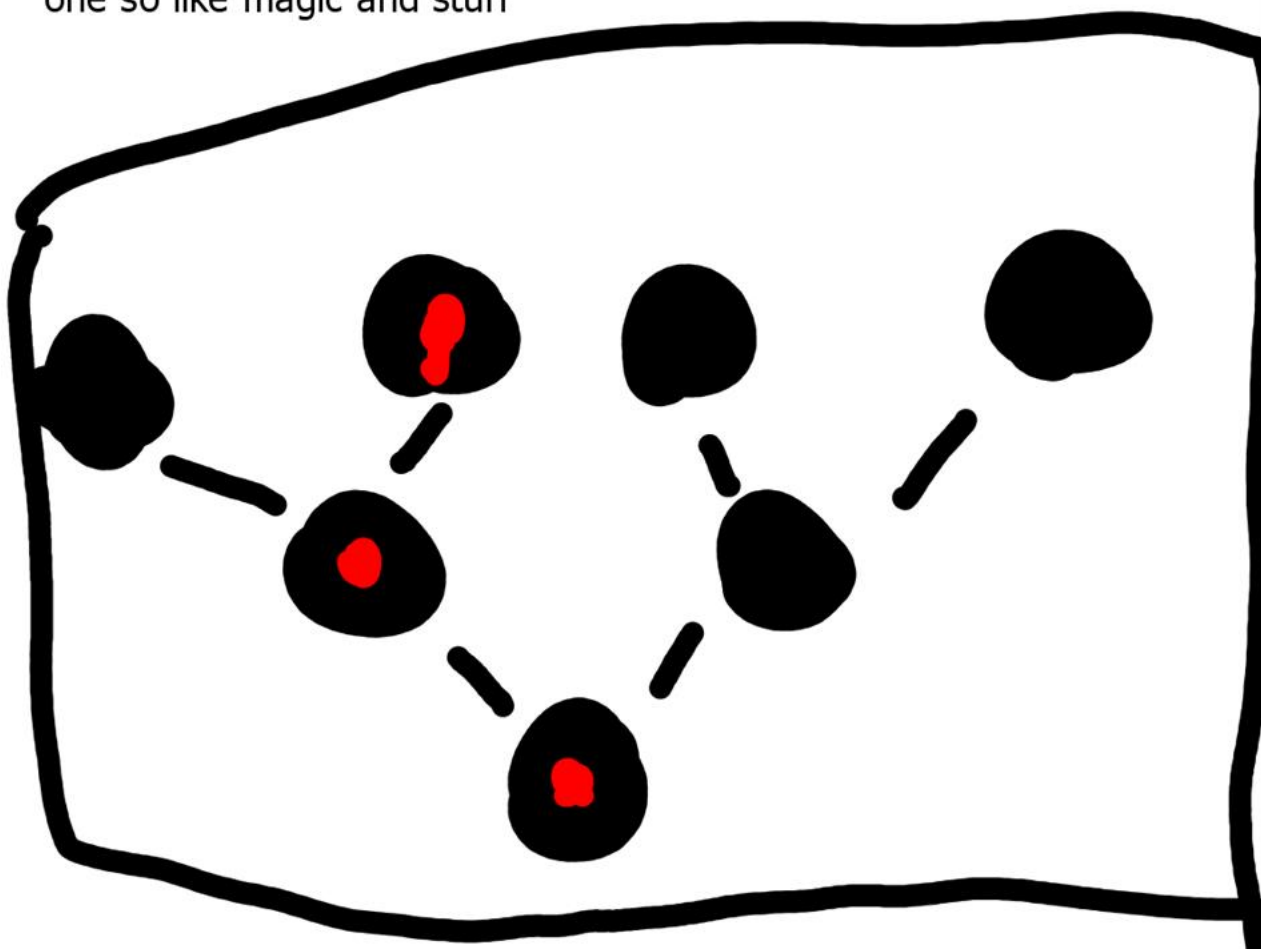

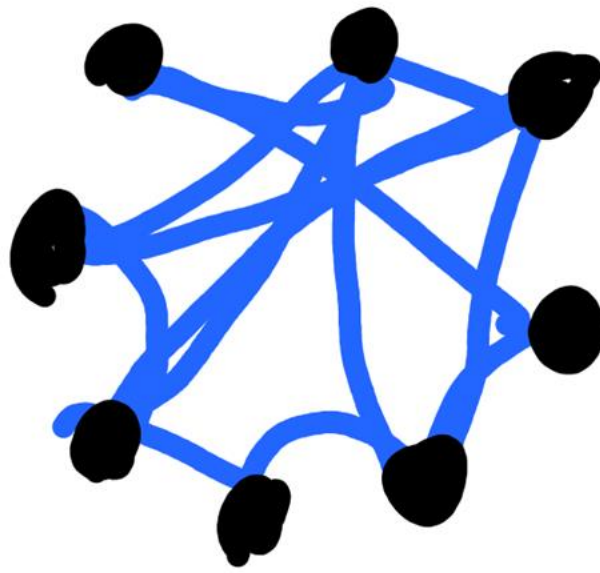

ok to start with what i am in this "plane" i gess we have two races demons and angels atlow the lines are very mix and we do in fact work together and before you say something im not 100% demon im like 50/50 whitch is common it is rare to find 100% angel or 100% demon if one even exists if youre 80% one or the other your work in the respetive field and are given a halo or horns and visually a demon is more animal like and are vibrent in colour angel more human but the most important workers in my opinion is the 50/50 ones we do a lot of the work in maintaining the worlds and purgatory where as demons and angels work in their afterlifes jobs and power to do the jobs are handled by the gods so i have my power from three gods the one for 44FY and HI16 and one of the multiverses

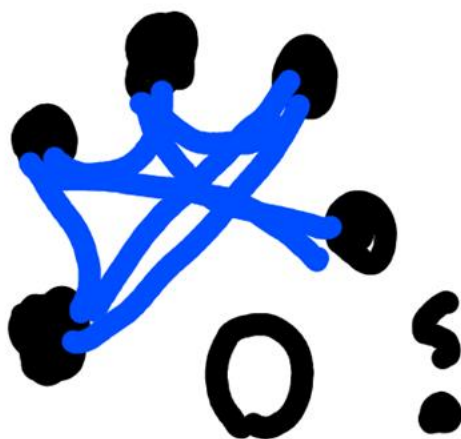

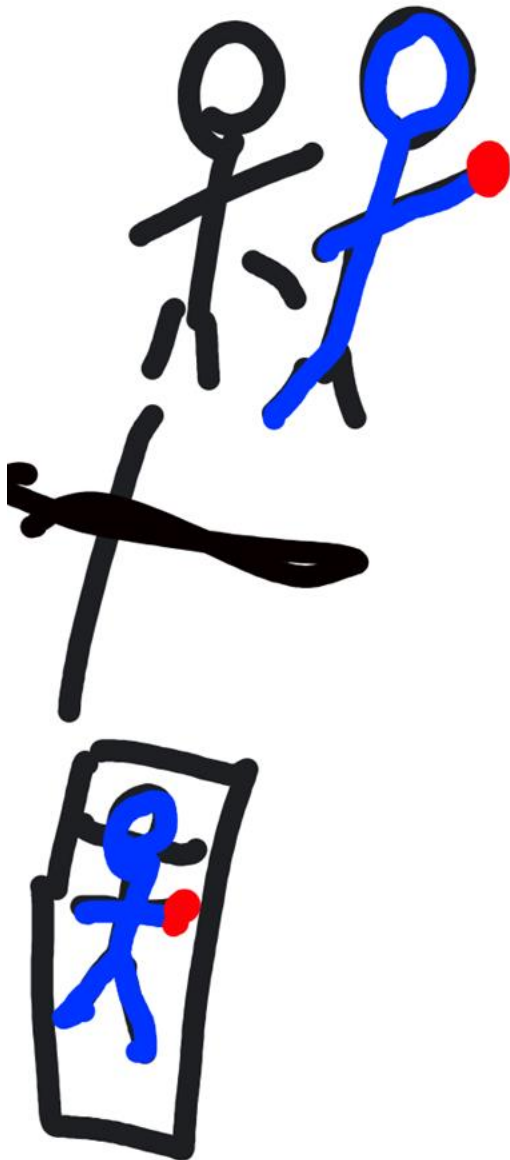

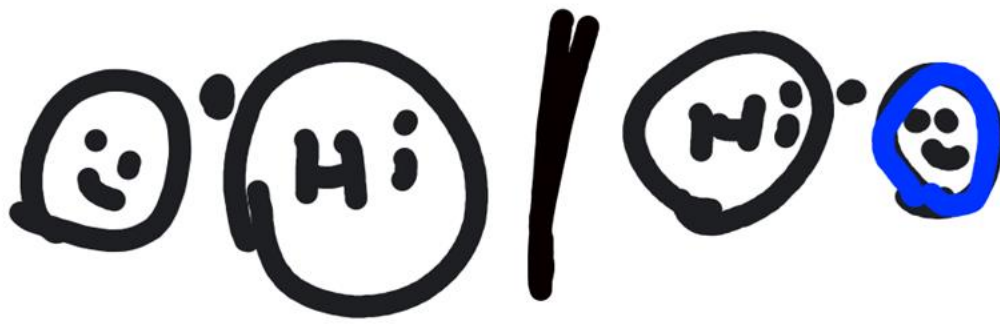

ok so now the worlds we have two multiverses
 we have one that if im not mistaken your kind
 know about whitch is the time based one in which
 making a decision splits in to two more but that has
 nothing to do with what we are doing we are in-between
 the second multiverse whitch is a bit harder to explaine
 but you can think of it as like if their is a media
 genre theirs a world of it so for example is a sapce sifi
 one a cowboy one and the one we are going to is a fantasy
 one so like magic and stuff

so now the links are what we call the connection between two sentient intelligent beings so like you and who your are going to meet but if a world does not have any active links we have hundreds of links per world it. well. we dont know thats why we linke em we think thay die and we dont whant that and you can do a lot of stuff with this link like

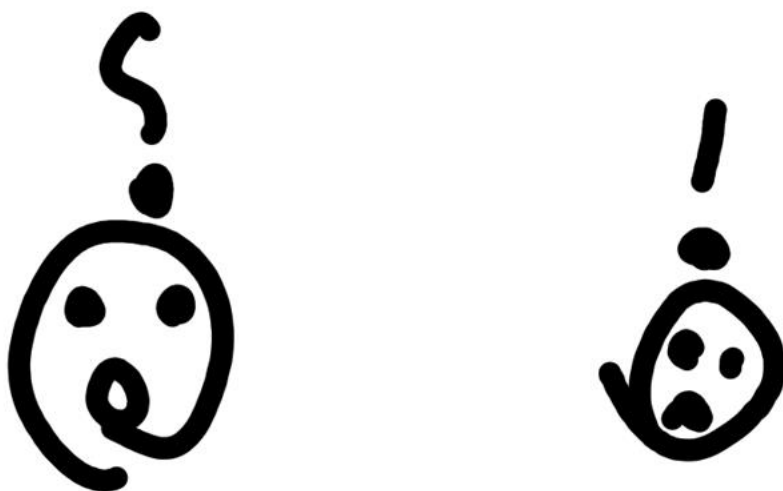

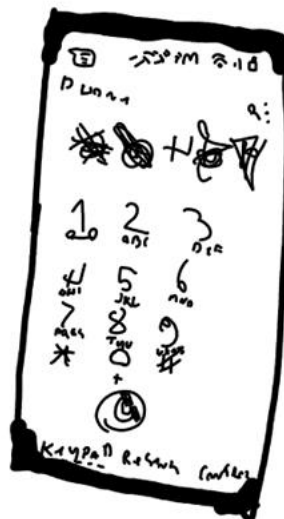

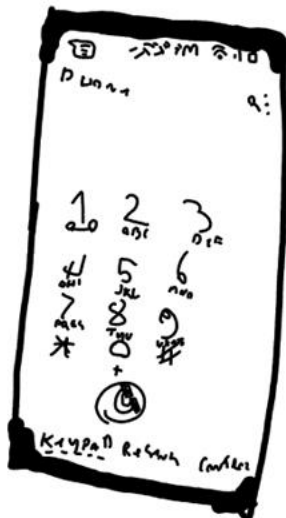

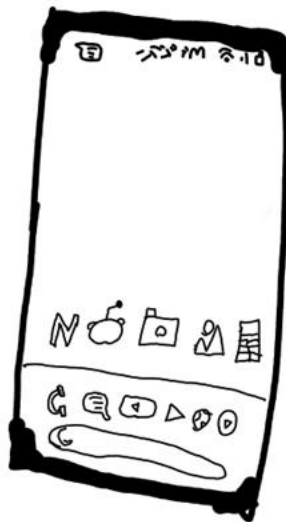

so with the link you can talk and you can
if you let them control the opposite body
it requires your attention the best way to
do this is to be asleep but the eye colour
will change but that's not the cool stuff
the cool stuff is that you can again needing
attention is you can go to the other world and
bring stuff between them so next
how to make a link

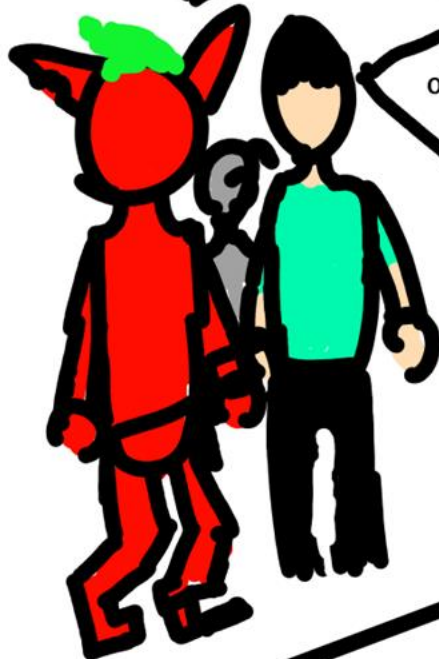

and to make a link you need three thing someone who has died someone unconscious that's you and me someone to help maintain the link by the way when you wake up you might be confused as to you this is a dream but when you remember the link you can use it again and you will wake up and the other body and it might be a bit to the other wakes up and you will need to be in there body till there up and speaking of other lets her oh and by the way i cant force you two link you both have to say yes

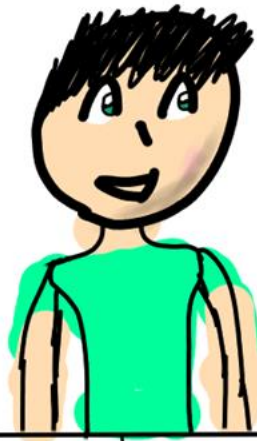

so than neecra told pebble what he had told josh in pages 10-14

you two make a
big choice link or not

so what now

yes

ok so when i link you two pebble will be out for a
bit and if josh encounters someone else suff
might not be so good as he will not know your
language and he might need to know how to
move so ill just grab your motorskills and vocabulary
skills its a copy dont worry and give it
to josh if you need to share more you can do that
later so lets beginnnnnng

See you next
