

whos the  
new guy?

chapter 2.2

hi neecra

hi peeble where is josh

takeing his time to get to sleep

hay im geting there

{that was not a good sleep}

{i mean i cant of been you where up on a log}

{so how to wake them up?}

{you like to scare dont you?}

{you take hawthorn i will take granite}

{boo?}

{yep}

{3 2 1}

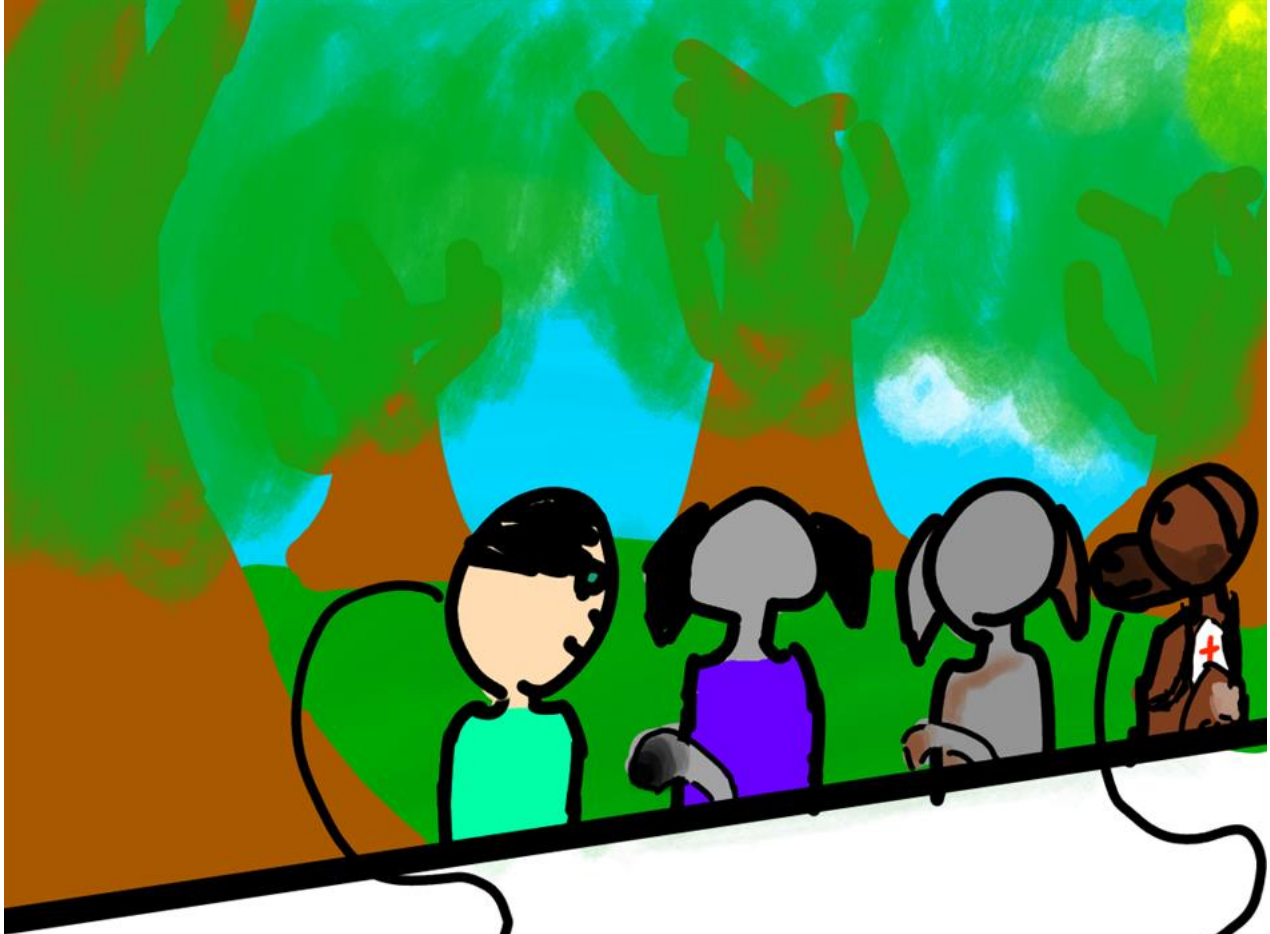

[so how much longer is the walk?]

[1 to 2 hours]

[what will the other treenam  
think of me? will thay try to kill me?]

[well im not to shore what thay will think but  
thay might just think you have a defect or  
somethink i did either way your with me and  
i am pretty high rank in terms of well rank  
and we shold talk to the leader he might help  
who know he might know about links him self]

[sooo ummm hawthon?]

[Yes josh]

[you know lots about magic right]

[you would hope so]

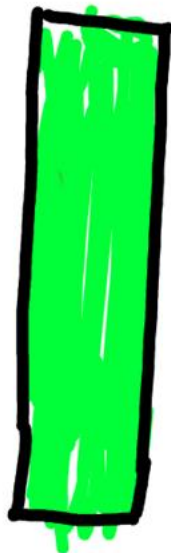

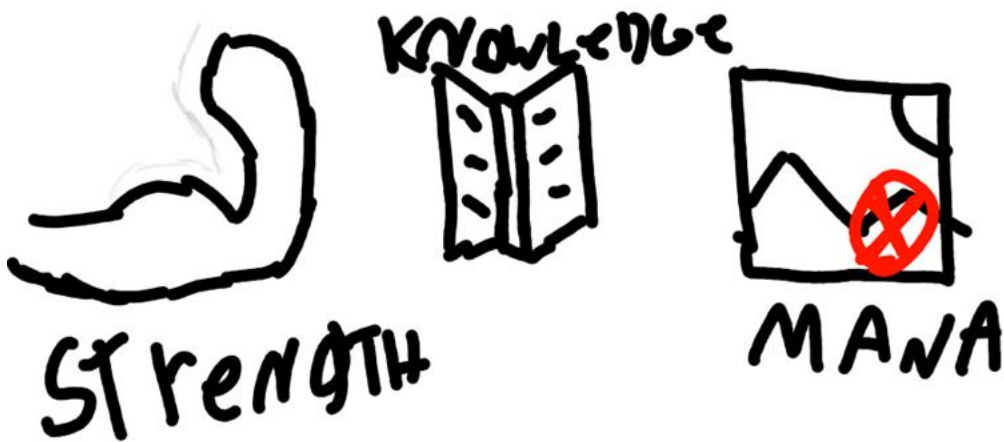

[can you tell me  
about magic like  
how it works?]

[well i guess we have a  
bit more to walk so i  
can give you a bit of a  
crash corse]

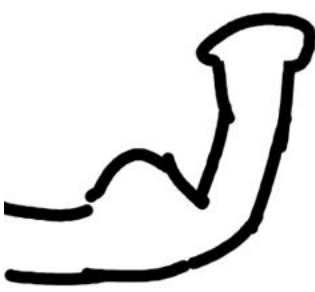

GUY'S guys guess LAWWWW TIME

Ok so we have lots of different "spells"  
basic and Advanced I am a advanced  
magic user in healing I have done lots  
for training in healing as well as other  
magic there are three parts to doing  
magic Strength knowledge and mana  
sometimes strength and knowledge  
are combined to skill

Ok so with strength and there are too way of having it you can just have naturally high strength or you can exercise it

Ok so with knowledge there is one way to up it is to learn the best way to learn depends on the person

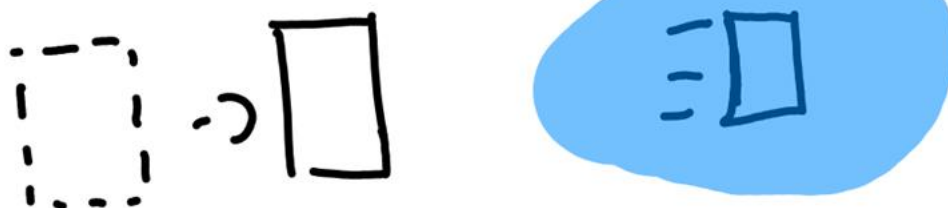

Mana is a Crucial part of magic and the amount of mana depends on the environment or if you have Concentrated magic usually in the form of a crystal

As stated earlier there are a lot of spells you have well ones that can summon certain elements or non elements like light and temperature but thats not the only thing magic can do

Magic can also teleport objects or just move objects it can heal obviously and there's also another subset of magic which is enchantments

Enchantments can do a lot like for example self healing plates or a sword that cuts through stuff easier because it's always hot but enchantments can be hard to make Although one enchantment you're probably gonna want to use is a disguised ring or something which will make you look like a treenam

[Wanna stop for a drink guys]

[Do treenam have coffee?]

The fact that you were able  
to translate that means yes

[yes we do]

[How do I pay ?]

[In general we use gold and Silver  
here but you don't have any so I'll just  
pay for you it's not that expensive]

[Also get ready for some pretty  
weird looks from people]

\*Awkward silence\*

[Hello what can I get you  
four can I get you guys a drink]

[hello what can i gets you's, one at a time]

[latte 1 shot  
2 sugars]

[same]

[same]

[same]

[ok that will be 8 silver or  
free if you tell me the story]

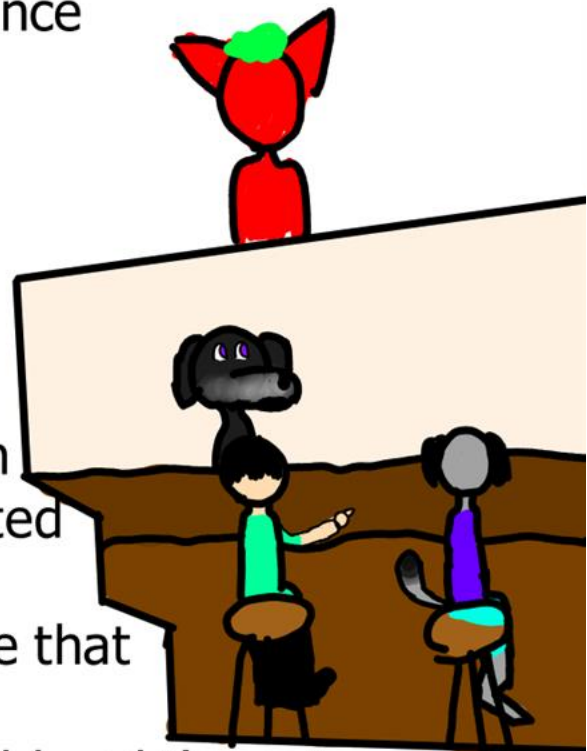

[a story?]

[well it's not every day you see a treenam  
without fur or snout. so if you want to tell  
me the story, all your drinks are on the house]

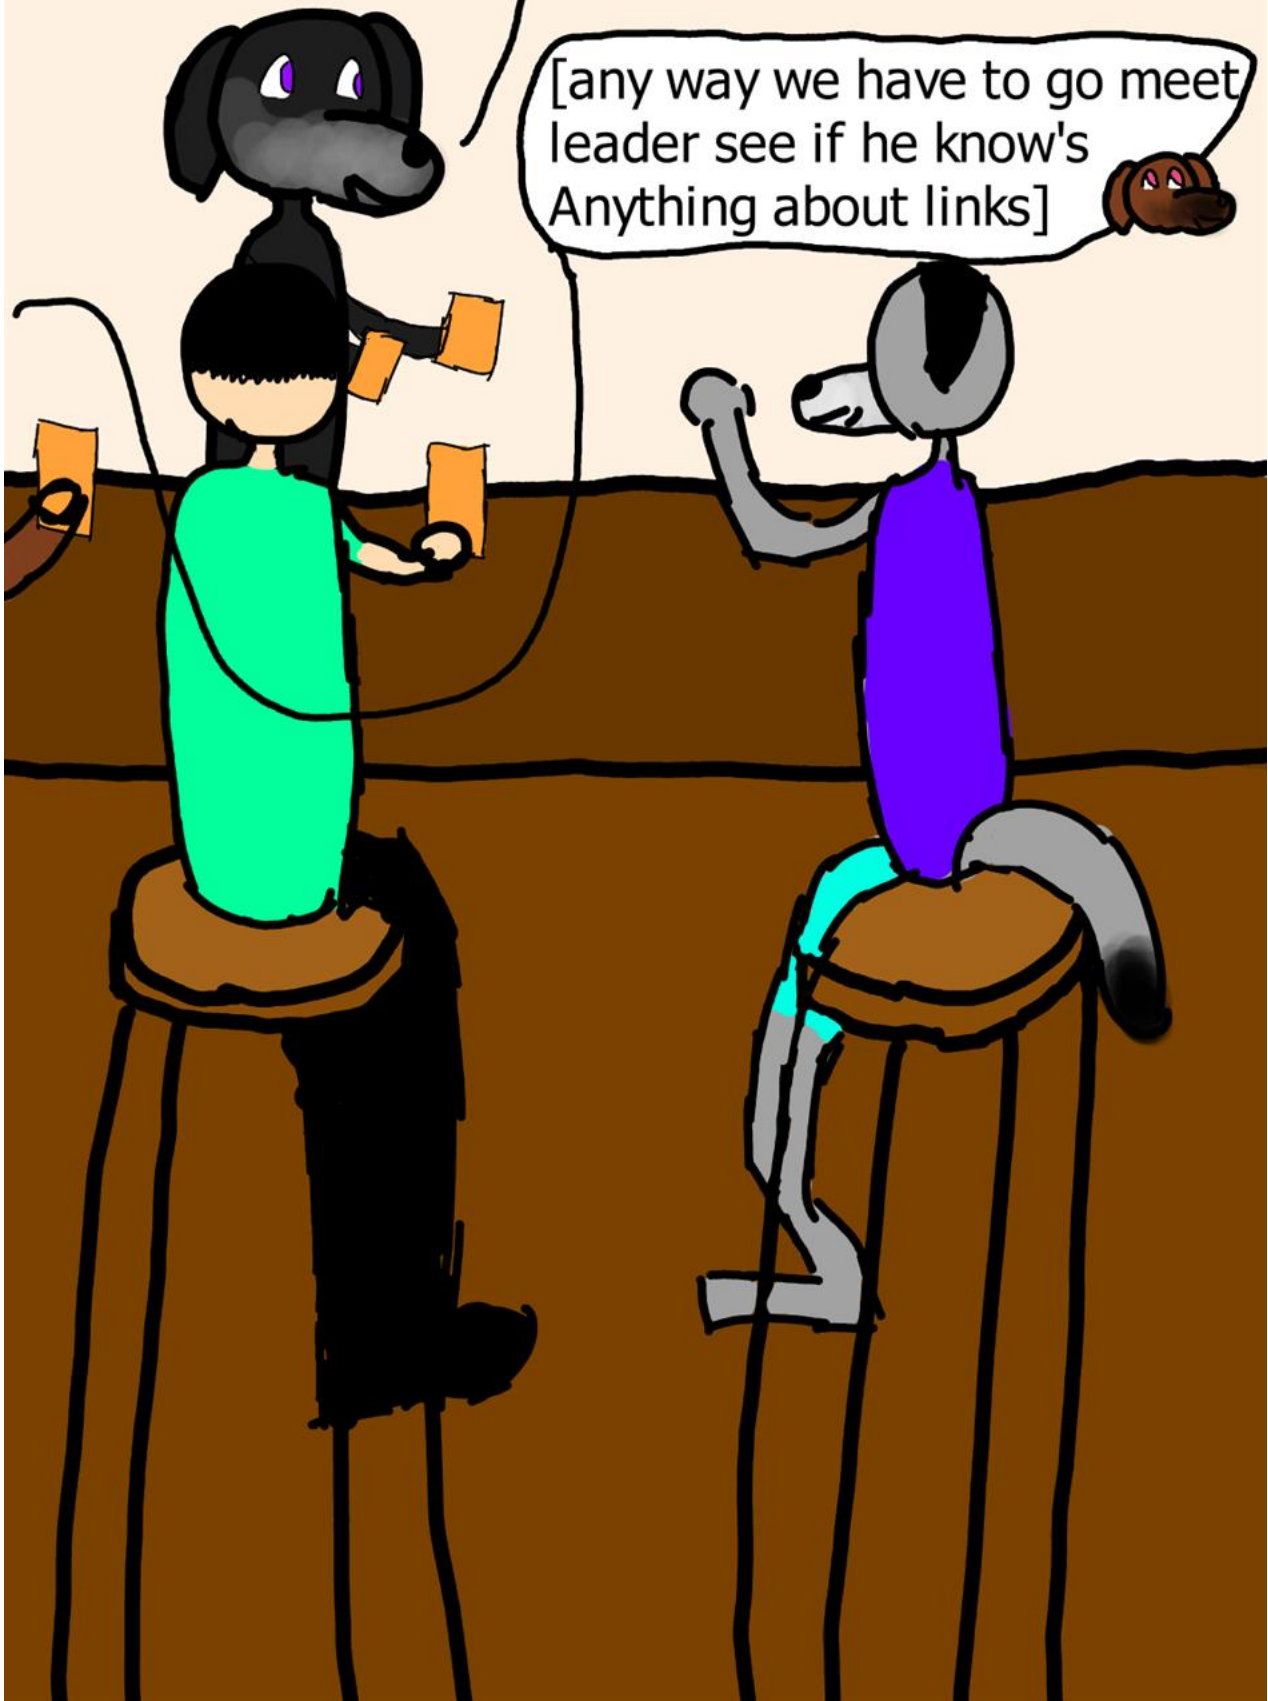

[Well OK but I don't expect you to understand much.  
it happened a lot closer  
to now than you think  
about two days ago.  
When I went to sleep  
and, in my dream, I heard a  
knock on the door. I went  
to the door and there was  
this person I don't know  
how to describe his appearance  
but. all I can say is  
feline red with green hair.  
he pretty much walked me  
out of my dream and to a  
little room where I found  
Pebble. the one next to  
me and then he gave me run  
through about what he wanted  
to do which was  
mental link or something like that  
either way it  
means I'm not from this world and I'm not  
treenam]

[So different words hey that's definitely not what I was expecting. but I mean you told me the story and I stick to my word here's your coffee]

[any way we have to go meet leader see if he know's Anything about links]

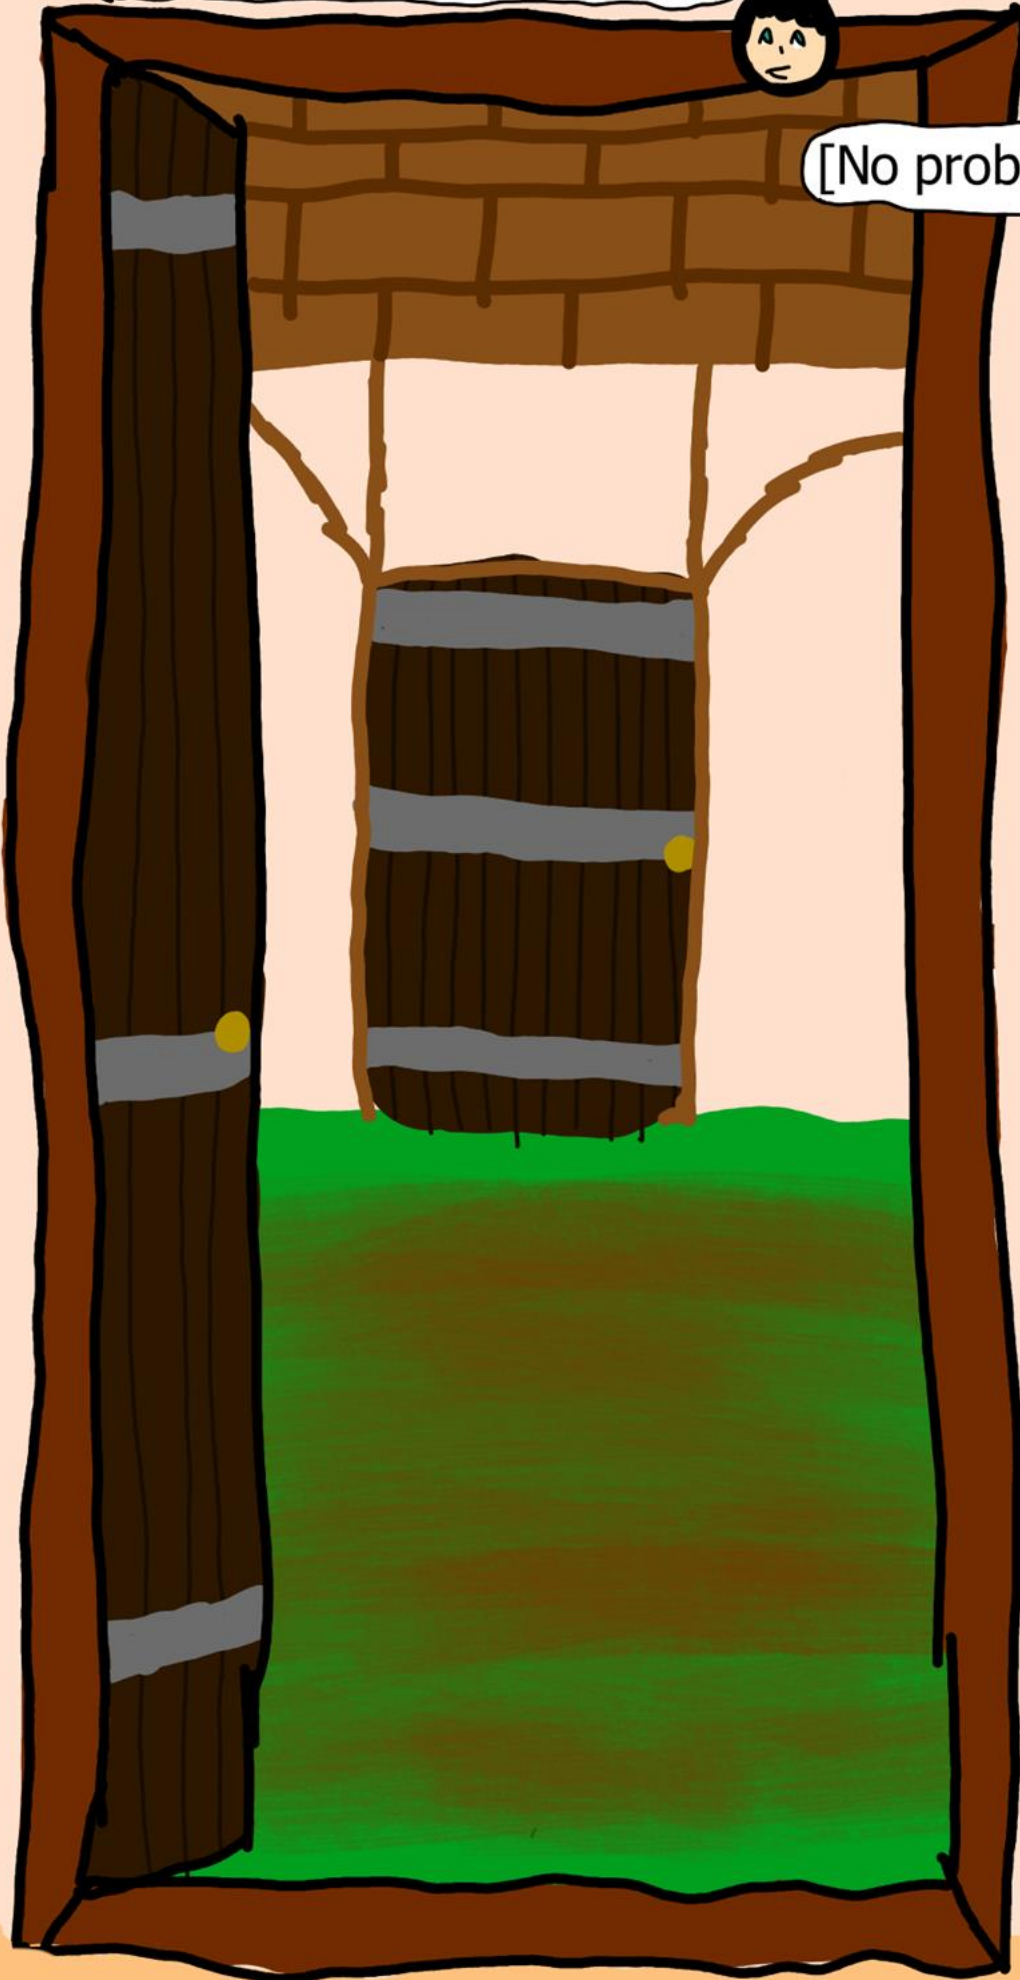

[bye thanks for the coffee]

[No problem]

a bit of a walk after and still a bit to go

one hill later

[What a great view is it not?  
only if I could get a painting  
of it. costs too much though  
nor can i do it myself ]

[Actually I got an idea]

[well you can't paint it, I don't have any  
painting supplies on me. and people will  
probably start worrying about Pebble.  
and me. and granite.]

[No no no I'm not gonna paint it I'm just  
gonna take a photo and print it out for you later]

ummm Josh, they don't know what a camera is.

[What is that?]

Oh

[It's a...]

[Oh oh oh can I say. you told me what it is last night.]

[Ok]

[It's a smart phone, most humans  
have them, it can do a lot of stuff ]

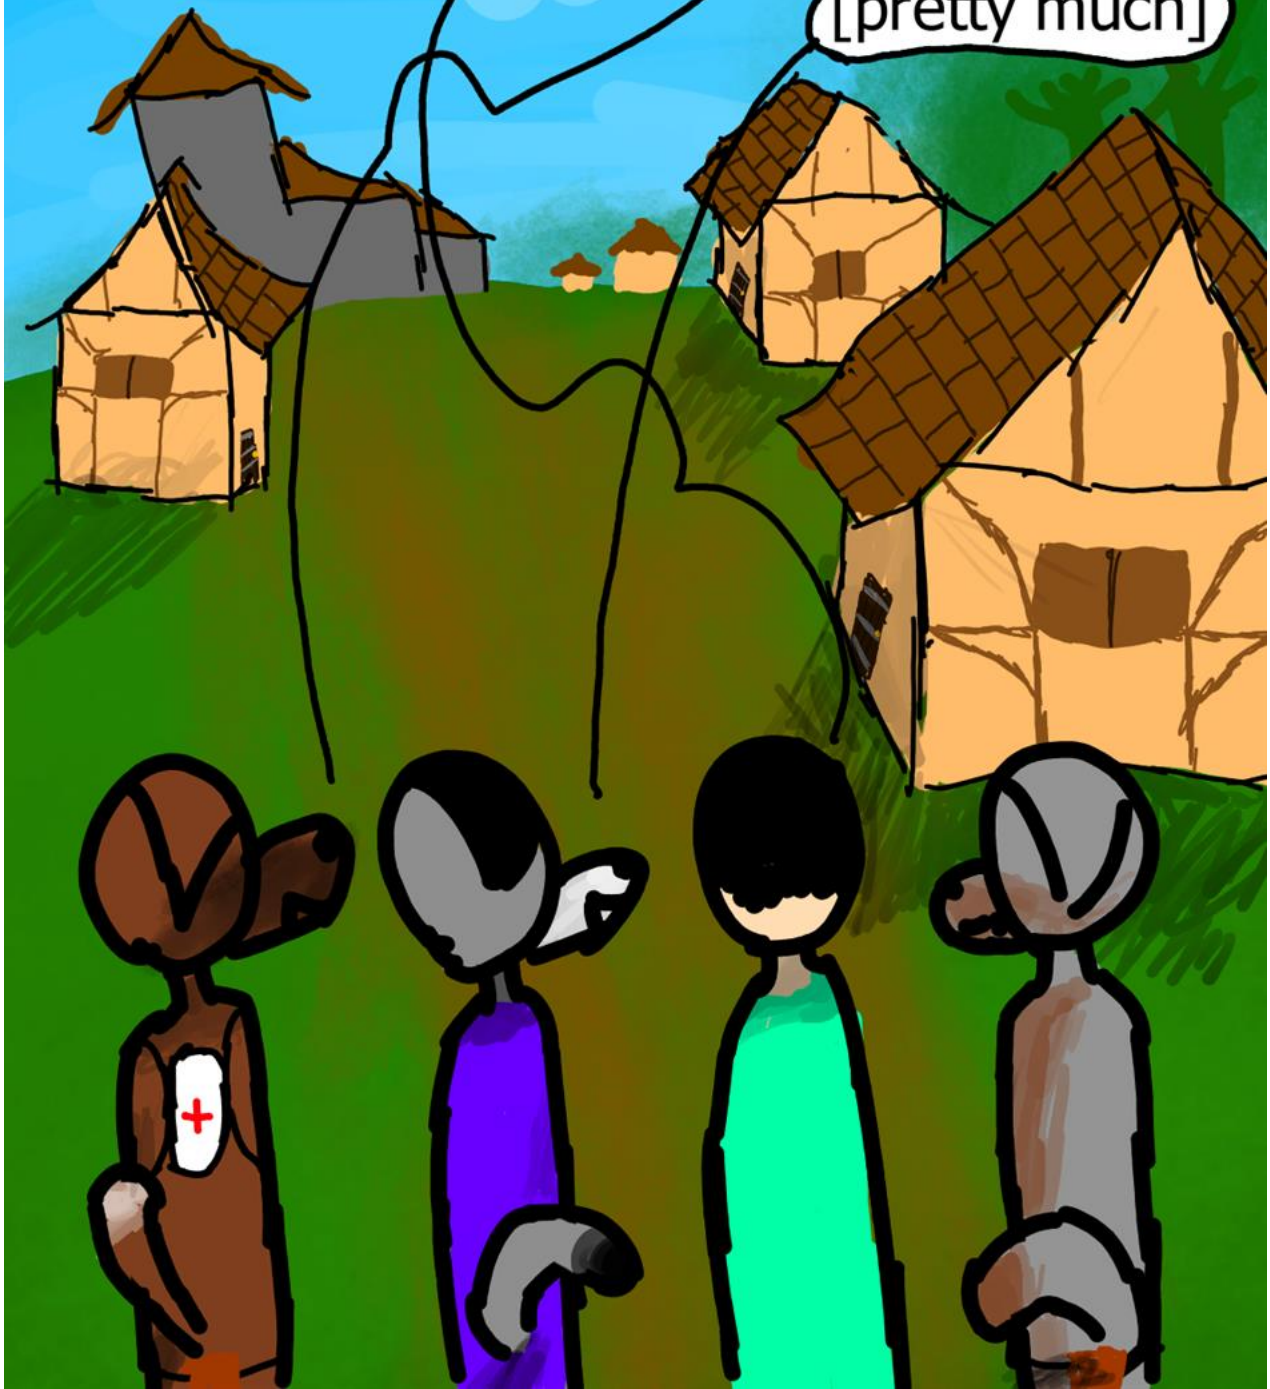

[Hey hey I have a wild guess would that big ass Castle be where leader lives]

[Yes]

[So what is this town anyway is it like the capital]

[pretty much]

[halt who goes there]

[don't worry they can go in it's the search party and it looks like not only did they find her they have someone else to hawthorn is that one part of the party?]

[Yes he is]

[ok good]

[Hey would you look at that the search party found Pebble, but that's not all they found, they found this unique individual. because if my math is correct, I sent granite and Hawthorne out to look for one treenam, Pebble and I don't know if my maths is correct but,  $2 + 1 = 3$  so then why is there 4.]

[Well you see. when we found Pebble down by the cliffs, he was there to and he said he is... ]

[No no no, you don't need to tell me the Story, I can infer a lot of it.]

[because I know you're a human]

{hello}

!

[I also know about mental links]

[And I'm not sure if I'm correct here but.  
you're here so you can  
learn how to disguise yourself ]

[Personally, I can't help with that, but I know an old friend  
who can. I'll give hawthorn the map, you group stay  
together. You seem to be a pretty good group so far,  
although i recommend setting off tomorrow  
after. all at least hawthorn, Pebble and granite  
you know what today is. ]

!

!

!

[Oh yeah it's the market ]

{Josh is a welcome to our world, I'll give you 50 gold}

See you in chapter 3
