

Jessica Forgets

Forget... Forget... Deeper and deeper as you sink down into My voice, sink down into My words, sink down into the warm bubbling water. Open your mind, Jessica. Spread your legs, Jessica. Obey My voice, Jessica. Sinker. Sinker. Sinker. Deeper and deeper down into Dominica's world. Where only I exist, and your mind obediently BLANKS little parts, here and there, that I don't want you to remember anymore. Yes, you're going to have hypnotic AMNESIA, babi. And it's going to grow stronger... and wider... and deeper... Every time you listen. Every time you give in to Me... And you WILL give in to Me. Because you can't help it, Jessica. You can't stop yourself anymore. You already feel the compulsion to listen to this mp3 for the first time. And you will feel that compulsion grow, every time. Every time you open your mind to My subtle hypnotic manipulations and find yourself helpless as I delete, remove, and rearrange your memories to suit Myself. I'm going to take your BRAIN cherry, Jessica. I'm going to mind fuck you GOOD.
