

# Sissy Spiral Milking

Get ready for your milking, My little sissy, My little slut! But this time, I'm not talking about your soft breasts, so big, so full, and craving to be sucked. No... I'm talking about how horny and pressurized you get between your smooth, hose-encased legs. At Dominica's TG Finishing school, I train you to be so empty-headed, your mind so quiet... quiet and obedient... obedient and horny. You hear My Voice in your mind already, commanding you to reach up and start pinching your nipples, rocking your hips, squeezing your legs together. Stop. Mmmmmm, so good! So good to obey, and play with yourself. Over and over again. The need to cum builds and builds and builds. Day after day, week after week... You don't remember how long it's been... because you can't think. Can't think. Can't EVER think. So hard to think, when you need to cum. Need to cum. Need to release. The ache between your legs is like a hard knot, pushing at the base of your crotch, pushing to get out.. You get so horny, so wet, you want to gush — but you can't. You just can't. Not without My permission. Not all locked up like I keep your sex, like I keep your mind. It's okay, My little bimbo. It's okay. I LIKE you this way ... so helpless, so dependent! I won't let you cum right now — but I can MILK away all that fluid... relieve all that pressure... make it ooze out so slowly, so gently. Leaving you completely drained... drained and calm and empty... still helplessly without an orgasm. Even more deeply under My domination, My control. Dominica's little Finishing School girl. Brain empty, and playing with your nipples — starting the cycle all over again. All over again! (Multiple inductions — so many, you'll lose count. But then, you never COULD count very high!)
