

10 Steps to Diva 3

Yes, My little Diva, there were many steps that I took, in the complete subjugation of your mind. Making you My pretty little girl, eliminating all independent thought. Steering you away from boys, just as I struck the sparks of your sexual desires and began fanning them into the roaring flames that consume you now. You don't remember — but I recorded it all. How I began training you to apply your slutty lipstick, and taught you how to lick My pussy. They've called Me, you know, and asked Me to send you over, so you can listen to this mp3 and re-experience your training, while they watch you helplessly playing with yourself, no longer able to distinguish between the recorded past and the hazy present. My pretty little whore!
