

A CUMSLAVE 1

In this powerful slavery Fetish MP3 I begin with a very deep trance state. The induction on this goes on and on pulling you deeper and deeper DOWN in My private elevator to My private underground level. Once you are deeply hypnotized I guide you to masturbate to My commands and teasing... and somewhere along the way, shrouded in slight echoes, lies the ultimate command. When I remove your will and My hands guide your hands, you no longer have control of the stroke, stroke, stroking... now I do by turning the tables on you so deliciously. The commands in this MP3 are so strong and direct I must categorize this MP3 in BOTH Fetish and Brainwashing... An exceptional variety of echo effects are used combined with individual ear balance techniques that bounce the sound from one ear to another so that it sounds a bit like your brain is in a canyon. HOT HOT HOT ONE if you miss this one you're crazy baby!
