

A CUMSLAVE 5 Quickie

In this the shortest and least expensive CUMSLAVE title I have targeted the areas of your body that still resist My cum control and replace them with robotic bot parts. Oh yesssss... you try so hard to find a way around having to STROKE STROKE STROKE all your will away... but now you're stroking cold hard metal unable to feel the sensations you so desperately crave. There may be eventual relief for you My cum pet... but it will cost you something more precious than money My dear!!! This mp3 employs multi layered binaural sound effects accompanied by light echo effects.
