

# Awake & Obedient

A no-trance trance... so many of you have begged Me for it... so many! You're so obsessed with Dominica, you want to hear My Voice 24 hours a day... 7 days a week... Even when you're asleep... Even when you need to be wide awake and alert... Like when you're driving. That's right, baby. I can't have you falling asleep at the wheel... getting in a car wreck... getting hurt. Of course, My motives are completely selfish... I want you alive and safe so you can spoil your Mistress... so you can continue to serve Me. No... I'm just teasing. (Or am I?) But I can still implant triggers in your helpless mind, even without putting you to sleep. Commercials do it all the time... radio ads do it a dozen times an hour... and you're barely even aware of it. Of course... you may resist THOSE triggers... to buy carpeting... or a new garage door... But you will WANT to obey MY triggers... keeping your cock hard, and THROBBING... craving for the next time you can hear My Voice... the next time you can touch yourself. I start off slow, and gradually increase the pace... assaulting your mind with more and more intense images... And suddenly, you realize that you're surrounded by triggers that get you so horny, you can hardly wait for your car trip to be over. But you're still in control of that car. And if you miss that exit on the expressway... if you have to get off at the next turnout... and double back... it will be okay... That just means you get to listen to My Voice on your car speakers... just a little bit longer! Focus on the traffic... focus on your driving... and LISTEN!
