

# Boot Follower LUNCHBOX

Follow My Boots! My Sexy Hypnotic Boots! They command you. They call you... They call you to FOLLOW. Follow the boots. You see Me, any time you see a beautiful woman in beautiful boots. And you know that you must follow. Follow Me. Follow the boots. But do you know WHY? Does it matter why? Of course not — all that matters is that you must obey. You must follow. And lust... yes lust, after My boots. This mp3 will deepen your obsession with boots. With My boots, and with all boots. Deeper and deeper, every time. Boots already control you... I know, my slave. And this mp3 will erase ALL your resistance, so that My boots acquire absolute control over your little mind. It doesn't take much, because your mind is so weak already. All it needs is a tiny... push... And this mp3 will push you right over the cliff, into abject boot slavery. This is the first of My LUNCH BOX mp3 sessions focused on rapid induction and fantasy exploration. Some of them will be BDSM related most however will be focused on Hypnotic Fantasies and being hypnotized without fetish elements other than hypnosis. All will be 25 minutes or less so they can be consumed INSTEAD of food at lunch breaks.
