

CUM Puppet

So manipulated! You are so manipulated! I present you with image after image of different places, different times, even different identities. And you fall so easily into each of them... one after another after another... dropping deeper and deeper down with each change... until your mind simply gives up. It simply gives up. Accepting everything I say, everything I do. All My suggestions are facts, entering your mind and becoming your truths. And deep inside those truths... deep inside, you discover something about yourself... that you're the only one... The only one listening to My Voice, who is really awake. All of the others are mesmerized... deep asleep... watching, helplessly, as you perform for Me... before an audience of lesser minds... merely helpless observers... every one of them blank... While you... you are aware, as you follow My commands... Fully aware, as I pull the strings. I raise your arms... I move your legs... and I make your cock **THROB** with intense lust! Forcing you into one extreme sexual performance after another... Until finally... finally... I tie you down, lock you down... into My Queening Chair, where you belong. And I'm never going to let you go... never going to let you cum... Never cum. Until you please Dominica... Unless you please Dominica. Unless you make Me happy. You won't be able to cum, until you do. You just won't be able to do it! But don't worry, babi... don't worry... I will tell you how. I will tell you how you may serve Me. And you are going to be **SO** grateful! You're going to **SHOW** Me how grateful you are!
