

Captured 6 – S&M

You've heard people talk about sub-space... that deep, obedient place where submissives go... where pain and pleasure mix, and become one. I can take you there, babi... I can take you there... Without the welts... without the bruises and the blood... But you WILL still shed the tears... You will still feel the RUSH in your increasingly sleepy mind... the tingling of your skin... the numb, floating feeling in your arms and legs... as your deeply hypnotized brain pumps out endorphins, trying to deal with the pain... with the humiliation. The sting of My whip... the hot fire of My electric probe... the ache of My weights, stretching your balls down... down... Oh, you look so cute, suspended like this from the ceiling! Your legs spread wide, shackled to the floor... and your mouth open... Are you begging for mercy, slave? Or are you begging to suck My smooth little pussy? Maybe if I activate My Black Rubber Suit, you'll be a little more eager... to serve your Mistress' needs... to serve My desires... to obey My every whim! Zzzzapp! I think you're going to learn to enjoy this! I think you're going to learn to crave MORE!
