

Cigarette Smoking Cafe

Across the crowded cafe, your eyes are captured by the flicker of My cigarette lighter, and the cherry-red glow at the tip of My long 120-mm cigarette... You stare, transfixed, as I click the lighter closed, and inhale that first, satisfying drag... and hold it a moment... a smile of pleasure on My lips. Is your cock is beginning to feel a bit tight and confined? Perhaps it's just because of My soft, sexy Voice, telling you all this... There's no hypnosis in this MP3... just a little story. A little story about you... and Me... About you staring, captivated and aroused... as I blow a long, colorless trail of smoke up into the air, and gaze into your eyes. Well... not much hypnosis... unless you have a fetish for watching a beautiful woman smoking... for watching thick, creamy smoke roll around in My open mouth... and trail lazily upward from My shiny, red lips.
