

Collar of Control 1 MP3

It's all so simple! A little electric collar... a remote control... and your brain! I slip the collar around your neck, and lock it in place. And then... Mmmmmm... then... We're going to have a little fun, babi... while I do some fine tuning. Adjusting your collar... altering the signals it sends into your helpless skull... finding your own personal neural pathways... So it does just what I want... So I can toy with your emotions, exactly the way I wish. A simple push of a button, and you find yourself feeling only pure joy... Other buttons send you into deep sadness, or hot anger... And a special one, right at the top, forces you to experience such intense lust, you think your sex may explode any moment into hot waves of orgasm! Of course, once you put this collar on... you're never going to want to take it off! Heeheehee! I'm not GOING to let you want to feel THAT emotion. I'm going to lay your mind bare, and control your every desire... your every laugh and tear, My little pet! My little collared slave!
