

FLOGGER fun MP3

Yes, My little slave. Flogging IS fun... Not just for Me, but also for you! You feel the stroke of My nine soft strips of black leather. Striking the skin on your back... on your ass... on your legs... Gently, at first, making your skin warm and red and swollen. Making other parts of you warm and red and swollen. Mmmm... I slowly guide you into a sleepy zone of hazy obedience, stimulating your brain to pump more and more endorphins into your little head. This trance is for both My little slave boys and My little slave girls. You will find yourself craving every stroke of My whip... because it just feels so good when those endorphins squirt!
