

## Feminine Breeder 3

Yes, My little Breeder. 9 months have passed... and now it's time! I'm not going to let you miss one minute of this experience... feeling the baby shift downward inside your tummy... feeling yourself stretch so incredibly wide... giving birth... Let Doctor Dominica guide you... through the cramps... through the pain... into the greatest pleasure a mother can ever know! And even in that moment... that greatest orgasm of all... you KNOW that you must obey Dominica! Hold your new baby in your arms... and cuddle her... Feed her from your huge, milk-filled breasts... and gaze into her little green eyes as she sucks your nipples. Yes, her eyes are like My eyes... deep, spinning spirals... and you love her so much. When she wakes up in the middle of the night, crying... you pick her up and hold her, rocking her back to sleep. You feel such devotion to her... you want to protect her and guide her. And you will, My little Lesbian Breeder. You will. Because it's all part of My plan. Dominica's little Breeders... and Dominica's little babies. All part of My grand master plan.

Length 46 min
