

Hypnotic Boot XTC 1

I have a new pair of shiny, black boots... that lace all the way up the back! And you, little boot slave, are kneeling at My feet, helping Me put them on! Pull the laces through the eyelets... left side... right side... now tighten! Good little boot slave! Only ten more to go! Mmmm... but with each pair of eyelets in Dominica's boots, the laces criss-crossing up the backs of My legs... you drop deeper... and deeper into trance. And when you reach the top of Dominica's boots... when you tie the little bow... where My soft, creamy thigh meets the black, shiny patent leather... your mind will be so deeply tangled in My web of hypnotic boot slavery... you'll never be able to get away! From Dominica's boots. That's when I will truly train your boot slave mind... and your drooling boot slave tongue... And overwhelm your desires for everything else with a mindless, devoted LUST... for Dominica's boots.
