

# Hypnotic HUMILIATION 1

Humiliation... HYPNOTIC... HUMILIATION... Bypassing all your defenses, exposing your desires, your lusts, your fears. And I use them I use ALL of them... to control you. To make you Mine. To make you MY slave. Helpless, aching and quivering, at My feet. Begging Me... Begging Me to be merciful... and begging Me to punish you... You don't know which you want more. You don't know... which you NEED more! Of course, what you want is one thing... and what you need is another thing... And what your Mistress Dominica gives you... Well, that's something else, again! But a pathetic worm like you will accept anything and everything your Mistress does to you. No matter how much you feel abused, no matter how much you feel soiled — you always come back for more. Hoping I'll do something even worse to you... My little junkie. That's right, on the floor. Knees on the floor, and hands up — like a little doggie. Now beg! That's right... beg Dominica for relief, for a moment of escape from the torment, even for release from My influence, My complete control over you! What, you want Me to degrade you even more? Oh, that's not what you meant to say... but that's how it came out, didn't it? You're no longer in control of what you say. You're no longer able to beg for release... And now the REAL fun can begin! This recording has many areas with both raw audio (very clear) and subliminally enhanced audio. People with epilepsy should not listen to this recording and avoid operating machinery of any kind while listening.
