

Jessica Black Strap On slave

I so very much enjoy programming My helpless femme sluts! I condition you to crave Me. To crave everything I want to do to you — any way I want to do it. You don't have any choice in the matter — and you LOVE that! Of course you do — you can't help yourself. You just can't help yourself. And you need to be fucked. You need to suck, and be fucked, and obey. And I have just the perfect, thick, black, shiny dildo to pump you with! You are going to get to SEE the instrument of your subjugation, little slut. And you are going to learn to crave it — and Me — so much more intensely! The main part of this MP3 is 15 minutes long I used binaural and echo effects not only throughout the Mp3 but also in the 5 minute segment of your favorite trigger seductively slid from My lips then treated with mind control techniques I employ in My total Domination of your slutty little mind. This five minute segment is for a deep trance without any thought to simply float for awhile for stress relief or tantric trance techniques you may employ in your own experiences to add an erotic touch... I think 5 minutes of jessssiiiccccccaaaaaaa is pretty EROTIC on its own but go for the gold ladies 😊~ Enjoy this treasure of sexual arousal and feminine allure. I really go after you hard this time which we both know you LOVE girl Mmmmmm...
