

# Jessica: The Next Step

You've been listening to My beginning hot, feminization mp3's, and now you want to go further. Well here is your chance, as I take all those hot, sexy triggers that I have been putting into you, and make them much, much stronger. And then I add a few more powerful compulsions.

Jessica is going to start taking over, and you're going to LOVE it when she does. You will find yourself more and more feeling like a woman, cumming like a woman, even dressing like a woman.

Yes, in this trance, you will be given a new compulsion: to wear panties. Oh, but you're going to love it, hunni... because those panties are going to make you feel soooooooo hot and sexy.

It will be your little secret. But if someone catches you, you can just say you lost a bet. And you will be telling the truth, because you WILL have lost a bet... to Me. You LOVE losing bets to Me, don't you?

Because Dominica always wins.

And you will realize, more and more, how much of a slave to Me you REALLY are. Because you're going to become addicted to pleasing your Mistress in a very special way!

Oh yes, this is the next step! And you know, sexy girl, one step always leads to another!
