

Kidnapped 1

You've fantasized about it. You know you have...

A big van drives up to you on the street. It stops. And three beautiful, powerful women step out. They drug you, force you into the van, and drive away... You feel the car turning, weaving through traffic... even as your consciousness slips down into a soft, hazy stupor. That is your last memory... before waking up inside an iron cage, naked and kneeling, staring up into Dominica's green eyes... My satin-gloved hand caressing your cheeks. Listen to My seductive voice as another dose of My hypnotic drug relaxes your body and paralyzes your will. I like collecting men like you, and turning you into mindless, hypnotized slave boys. Keeping you in a little cage, like a pet... down deep in My underground dungeon, in the semi-darkness. There's where the REAL training will take place. Now, slave boy... watch the special TV screen, as the sexy images fill your eyes and ears and mind with subliminal commands that you can't possibly resist... because you don't even know they are there!

This mp3 is excellent for those who want to learn more about hypnotic submission, who are just starting out, but even those who have listened to many of MzDominica's mp3's will go under for this.
