

Knife-Point Trust & Obey MP3

Pleasure and pain. Pleasure and pain. It's not about the pain its about the THREAT of pain 😊
The sensation of Me, MzDominica, trailing the point of a sharp knife, up and down your skin. Your paralyzed body unable to resist, unable to move – able ONLY to feel. To trust. To give in. To obey completely and helplessly more-so than ever before... This isn't for everybody, but it IS for you – isn't it, my helpless slave? You might even try to ignore this mp3 for a while – but the idea will gnaw at the back of your mind, wearing away your resistance, multiplying your fascination with the idea, every day. Until you HAVE to give in to My edge play. You HAVE to listen. You HAVE to open yourself completely, to MzDominica! This is not an SM recording. It is a sexy exercise to strengthen your trust in Me NOT to hurt you. There is no intense pain, cutting, blood, or any torture involved other than your hard cock panting for release your so turned on by this new experience. So often I know you try to experience BDSM without putting yourself in harm's way and this is another REAL activity that takes place often in live BDSM situations. It is important that you My devoted slave experience all of My talents. I have many tricks up My sleeve and you My pet you're going to enjoy every damn one of them 😊~
