

Lesbian Hooker 3

It's time to earn your keep, you little slut! Time to earn the cash that lets your Mistress Dominica live, in the grand lifestyle that I deserve! I'm going to dress you up... in your little hooker's clothes... Tight, little tube top... squeeze those perky breasts so high, they're about to pop out! Tight, little red mini-skirt... almost a strip of nothing... Long, shiny thigh-high stockings... and pretty little boots. I'm going to make you up, like the whore you are... like you were MEANT to be... thick eye shadow... bright lipstick... I'm going to add a huge, blonde wig... and some gaudy earrings... And I'm going to send you out into the streets where you belong... Working that corner... Strutting your slutty little body... Your Lesbian body... Oh yes, this is the street they all know about... the street they all come to... Beautiful women, looking for adventure... Lesbian virgins, looking for that First Time... They've heard about this place! And here you are, My little slut... waiting under the lamp post... The car rolls up and stops... you walk forward, and she opens the window... Lean against the car, Lesbian Hooker... and give her a good look at your cleavage... rub your pussy against the door handle... She wants you... She wants to touch you... She wants to push her face down between your legs, and lick... inhaling the scent of your pussy... flicking her tongue over your hard clitty! But you have a secret... don't you, whore? You have a secret... My special perfume! And soon, she will find her brain emptying, as she becomes just one more of My mindless, devoted followers. Yes... the REAL reason you're out on that street corner. You're there to recruit more Lesbian Hookers... for your pimp! For your wonderful Mistress! And if you're good, hunni... if you're very, very good... I'll let you play with her, after I've taken her will away!
