

Lesbian Hooker 4: Girl Gang

You find yourself where you belong, My little hypnotized slut. Standing on the street corner, leaning back against the lamp post. Dressed in shiny thigh-highs, a plaid skirt and a silky satin blouse. Like a little school girl, so demure and innocent! A car drives by... slows down... You lift the hem of your skirt, and show them the goodies, waving your smooth, sexy thigh back and forth, spreading your shaved pussy lips wide open. You know they're checking you out, girl. But then the car drives away, leaving you behind. What will it take, to make a woman stop the car... open the door... and order you inside? So you can lick her soft, wet pussy... like the little whore you are? Dominica's whore, always working that corner... bringing your pimp more money... more innocent, horny bodies and minds that I can enslave. I know what you need, you lazy slut. You need more of My training. You need My big strapon, thrusting in and out of your helpless pussy. But not just Mine... not just your Mistress'... You need a FULL education, My little Lesbian Hooker. You need a lesson in humility and obsession... obedience... and orgasm!
