

Mail Order Husband

You fantasize about it every night. You daydream about being married to a rich, beautiful woman. All your cares seem to float away, as you slide down under the satin sheets and slip your fingers into her wet pussy, waiting for the servants to bring you breakfast in bed. And now you have your chance... to get away from your exhausting, mind-numbing job, moving boxes in a hot warehouse... and to find the woman of your dreams... as a mail-order husband! Of course, the kind of woman who sends away for a man may have **OTHER** daydreams of her own... Powerful... dominant... She wants to train you to do things **JUST** her way... You'll be more like a pet than an equal... more like a big, obedient dog than a husband... but then, just maybe, you can be **BOTH**.
