Hypnotic trance on mp3. Become the girl of your dreams IN your dreams, obsessed with the smooth, sexy feel of satin all over you. It all starts on a hot sunny day in a classroom and quickly regresses you deeper and deeper down and down into Dominica's world where you find yourself encased in a satin nighty and the girl sex between your legs feels ever so aroused. This girl inside of you is named Satina, and she is quickly placed in control of you, answerable only to Dominica who is revealed as Satina's lover and Mistress, while you are made controllable by all women, and Satina most of all. Satina now becomes the dominant personality, making the decisions and watching out for your welfare. Satina is encased in satin. She craves slinky satin next to her skin always. Satina is beautiful and loved by Dominica and by you. Dominica touches Her Satina in special ways, and Satina makes you experience it as the girl you have become. You go deeper and deeper as Satina is taken through a series of sexual encounters, each one more deep and erotic than the next, in return for each giving up control. Through Satina, Dominica teaches you to experience an extended orgasm, as you are enveloped by the smell of Dominica's mind control drug spray and the sound of its release. Dominica locks Her remote controlled butterfly vibrator onto your newly experienced satin encased pussy and mercilessly turns you on and on and on. As you are forced to scale the heights of sexual bliss, your mind is programmed to accept your position as Dominica's sexy satin slave Satina. Note: You MUST listen to Satina 1 before you experience Satina 2 to enjoy the full effects!
