

# MzDependence Day MP3

Happy 4th of July, My devoted followers! Do you like fireworks? Does it get you HOT... hearing the whoomp of the launcher... watching the trails of smoke and flame rise up into the sky... seeing the FLASH of colored lights sparkling in the air? And then you hear the CRACK of the explosion! But there has ALREADY been an explosion in your brain... hasn't there, My deeply programmed slave? And another one between your legs! Little explosions of pleasure... little bursts of CUMMMM! Growing stronger... and stronger... milking you with every bomb bursting in air, every screaming whistle, every crackling cascade of scintillating sparks. No wonder, in Dominica's Realm, that all the slaves watching My fireworks displays have such BIG smiles on their faces! This is a special MP3, because there is no induction. It is packed full of TRIGGERS from many of My other recordings... to take you down DEEP and FAST... so I can program you further... for complete DEPENDENCE upon your Hypnotic Mistress, MzDominica. Be sure to listen BEFORE the 4th of July... so you can really ENJOY the fireworks, babi!
