

# Pyramids of Denial

Sex and trance... Sleeping... dripping... nodding... throbbing... cumming... Ooooooh, no... Not YET, My sleepy slave! Heh-heh-heh-heh-heh... Do you know what pyramiding is in hypnosis? That's when I take you DOWN into trance... and then let you wake UP a little... and send you DOWN into sleep again... Over and over, DEEPENING your level of trance every time... while giving your mind a little roller-coaster ride that leaves your brain disoriented... numb... and so easily suggestible. And when I combine it with arousing mental images of My legs spread wide... My shiny crystal dangling in front of My wet, dripping pussy so close to your face... My booted toes sliding up and down the length of your cock... your hard cock... throbbing and pulsing and STRAINING for that moment of sweet, squirting release... well... I think it's MUCH too thrilling a ride for us to end it TOO soon! Don't you agree, babi? You won't mind, will you?... being denied that orgasm for just a LITTLE bit longer... So I can take your mind deeper... and deeper... Come here... crawl right here between My legs... and kiss Dominica's nipples... and hold out just a little more... Kiss the right nipple... and a little MORE... and take a DEEP breath... inhaling My perfume... Are the pheromones working, babi? Exhale... I can feel you shivering as you pump your cock into the empty air! Now kiss the left nipple... and breathe in again... Deeper... Exhale... And now the right one again... Breathe... You're doing SO well! Time to wake up again! Mmmmm... Wake up! Maybe this time I should be the one to stroke your cock... I'll use just the tip of ONE finger... Up... and down... Repeat the words... Up... and Down... SO slowly! Up... that's right... and then sliding Down... good boy! And down deeper... Up... And down deeper, with every stroke... Dropping into a deep, somnambulistic state... Breathe in... and out... and in again... One more stroke, and you will cum! Wide awake! Oh yes! You were getting SO close! Go to sleep again, and listen to My Voice. You're going to need to listen to My Voice... over and over again... while you stroke... and pulse... and drop deeper... floating on a little cloud... and sinking into the deep waters... gazing up into My jade green eyes... kneeling at My feet and craving to spurt... Wake up! You need this mp3 as soon as you can get it, My sleepy little horn dog! Sleepy... so sleepy... growing more aroused... unable to stop... compelled to listen again... never ever able to stop. Wide awake! That's right... eyes wide open, brain aware of every tingling nerve! Just wait till I wrap My Voice around your cock! Just wait till you can't stop yourself!
