

Queen Passionate – Hypnotic Villainess 1

A simple spiral is all I will use, at first.... My soothing, sexy voice... sliding into your mind... sliding into your brain... like hot, wet, slippery sex. I will relax you so deeply, your mind will simply obey... as the spinning spiral caresses your brain with irresistible waves of hypnotic power. Only I matter to you, only My voice as you obey every suggestion that you receive. See waves of sex and pheromones flowing from My body. Feel My power. Breathe deeply and fall further as your mind opens wider and wider, so eager to follow, eager to please, eager to obey, eager to be programmed by Me. My voice entrances you every time that you hear it. The longer you listen the deeper you are hypnotized. You will listen to this programming over and over and over again as My power over you will grow stronger and stronger each and every time that you listen. You must obey. I speak directly to your brain and you just do as you are told. Every time you sleep, your lust for me will grow and swell Mmmmm. Sleep sleep sleep sleep sleep sleep sleep.
