

# Queen Passionate – Movie Queen 3, Hidden City of Stones

In this, the third episode in My Movie Queen MP3 series, I play the part of a stunningly beautiful and wildly sexy caged slave girl that you, the brave and intrepid Explorer valiantly rescue and release from captivity. In return, to show you My gratitude, I lead you on a dangerous and perilous journey to the secret hidden City of Stones but not before performing the ritual of the 10 Hypnotic Stones upon you, turning the tables so completely and deliciously by capturing and enslaving your mind, body and soul, making you My submissive, obedient and adoring slave forever as I take My rightful place, seated upon the throne of the Hidden City of Stones and you assume your place, submissively on your knees before Me as My loyal and worshipful subject!

This MP3 was recorded during the day and has a few background sounds of the distant rumbling of traffic. In editing I found it not to be very distracting since My voice is rather commanding and flirty I don't think you will have ANY problem staying focused on the dripping honey that is My addictive, hypnotic voice.
