

Queen Passionate – Passion Hive 4

You are now unable to resist Me. My wishes ARE your commands. You are so focused... focused only on My voice... focused on Me. Dropping deeper and deeper under My spell, My magic. Brainwashing you deeper with every syllable I speak, every breath you take of My sweet mind controlling pheromones. I will turn off the lights inside your mind one by one until there are no thoughts to distract you from your focus on Me. Focus on Me, and ONLY Me, your Queen. The sound of My voice, the snap of My fingers, they force you down deep into erotic obsession over your Queen. Every syllable from My lips drives you into deep, mindless sleep, and at the same time into a frenzy of arousal. Mind control is happiness. Absolute concentration upon Me is happiness. Welcum slave drone. I will now take you into the fourth level... the deepest level of surrender. Hypnotizing you deeper every moment while you try to dig your fingernails into the sides of the tunnel down which you are plummeting. Sliding down deeper... further down... closer to your Queen, the source of the pheromone-laden perfume that keeps curling the tendrils of My control deep into your brain. Switching off the parts of your brain one by one, leaving you a mindless, horny animal, smelling Me, lusting for Me, on your knees, cock throbbing, loving everything I do to you. I am your Goddess of lust and sex, the focus of all the desires of your empty mind. There are no longer any thoughts to distract you from your true focus. Your focus on Me, your Queen.
