

ROBOflow

Robot. My obedient robot boy. Slavebot boi. Plastic and steel replacing your skin and bone. And micro-electronic circuitry replacing your brain. MzDominica's obedient robot boy. When I command you to turn left... your electronic brain responds... FORCING you to turn left... You don't have a choice. You CANNOT resist. All your responses are PROGRAMMED into you. Lift your left hand, robot. Kneel on the floor at My boots, robot. Stroke your hard, metal COCK robot. Robot slave. Stroking slave. CUM slave. Yes, the more you find yourself FORCED to obey My commands, the more you feel the CUM building pressure in your swelling robot balls! Stroke... stroke... stroke that shaft, cumslave. Robot boi. Slavebot. Stroke that cold, steel shaft... and feel it growing warmer... and warmer... Now stop. Your programming FORCES you to stop! Robot boy, kneeling on the floor, metal hand frozen on his cock in mid-stroke! I could leave you there forever, robot boy. Like a statue, for all to see. For all to visit, frozen in a metallic masturbation frenzy, unable to cum until MzDominica gives the word! Or, I can command you to CUM, slave. I can command your cum to FLOW out of your hard, metal cylinder... your robotic balls PUMPING... the blue sparks of electric ORGASM cascading through your metal body. Making you shake, and squirt, and pump! Do you want to hear My command, robot slave? Do you want to hear Dominica's command, to your obedient, computerized brain? Then you must obey. You MUST obey Dominica. NOW, slavebot! NOW! Or forever be frozen! A statue on exhibit... a display of helpless, robotic lust!
