

# Realm Pt 9 – The Garden

You have heard of the Garden of Earthly Delights — but there is none so delightful as Dominica’s Garden, here in My Realm. In My little farming community, every individual has a purpose, a role to play. Sometimes, it’s as the farmer... and sometimes, it’s as one of the plants! That’s right, in Dominica’s Garden, you will have the experience of simply sitting in the sun, in warm, sandy soil. Relaxed. Mindless. Growing. Flowering. And when the time comes to harvest your seed... Well, “cum” is definitely the word! I’ve got a garden party planned like nothing you’ve ever seen before! Many hypnodommes offer you the opportunity to grow as a person — but how many offer to help you grow... as an actual plant? No thoughts, no emotions, no bullshit simplicity at its finest. Watch the way I weave the vines of your sexuality within My Own perverted desires... This MP3 is appropriate for slave boys and femme slaves alike. The spirit of the REALM series is to join together as a FAMILY of slaves under One Superior Woman... MzDominica!!! Shared experiences and training is on tap in My Realm. Dare to glimpse the future of Hypnotic submission and slavery right NOW.
