

Robo Mind Fuck

What happens, slave, when I put you in the same training room with My bright, shiny, robot fucking machine? You find yourself staring at the huge flywheel, with its mind-capturing spinning spiral... and at the long, metal rod... with its thick, shiny, self-lubricating dildo... thrusting back and forth... back and forth... Or maybe a soft, ribbed, plastic sleeve to slip over your cock... Yes, it has attachments for both men AND women... And your cries for mercy mean nothing... Because My robot has been programmed to FUCK. It's just a machine. And when it locks you down on the floor, holding your arms and legs with its hands like big metallic clamps... there's no way you can stop it... No way you can keep My robot from stretching ALL of your holes... Thrusting in and out... faster... and faster... the little jolts of electricity growing stronger... and stronger... as each one of the thick, metallic dildos expands... Filling you... stretching you... shocking you... as its twin projectors flash flickering, brainwashing images into your eyes and its synthesized voice repeats over and over "YOU... MUST OBEY... DOMINICA... YOU... MUST... OBEY... YOU... MUST... OBEY... DOMINICA..." Will the subliminal messages in its metallic voice ERASE your mind?... before the growing stainless steel dildo permanently dilates your helpless ass... before you are forever stretched by the pumps on your nipples... on your sex? You must obey Dominica. Repeat it ONE last time... before the thick, metal shaft is shoved into your mouth, and the mind control drug begins to squirt down your throat!
