

# Rollercoaster

Need a break? Just sitting in your chair, you can spend the day at an amusement park, hanging out with friends, sipping sodas to cool off in the hot summer sun — and enjoying the thrill rides. How about a ride on a roller coaster? You won't even need to worry about your hat blowing off! Look up at the tracks. They loop and turn, and rise so high overhead. You watch from below, hearing the screams as the cars plummet smoothly down the rails, making the tracks sway, and then they drop into a tight circle... or down a corkscrew, spinning over and over again. It looks like the perfect thrill. You can already feel your adrenaline pumping... And it's completely safe... Isn't it?

Length: 14 minutes  
Our Price: \$40.00
