

Rubberboi

You have waited so long, My little latex pet! I know... you think I've been neglecting you. For a long time, My femme rubber slaves felt the same way... But there's a difference, you know... between neglecting you and TEASING you. I've been making you wait for a reason. I've been training you to be patient. You're going to learn to be very, VERY patient. You won't have any choice, locked into My thick, tight, heavy rubber suit. I can see it's already having an effect on you. Just thinking about it is getting you aroused, and sleepy. That's good, slave... because I have special plans for that hard, throbbing shaft of yours!
