

# School Girl 1 – Biology

You are so cute! In your starched, white blouse... and your little plaid skirt! Oh yes, you look so darling and innocent! But you and I BOTH know... don't we? You've got a demon-streak in you. You love to tease the boys... AND the girls... Meeting in the biology class, under the lab benches, pulling your skirt up and spreading your legs so wide... Feeling their fingers... their tongues... Maybe a hard, buzzing vibrator... Or a cock... Or even something else... a cell phone... or a hockey stick! You hear the door open, and all of you hastily crawl out from under the table, straightening your clothes... But you can see it in My eyes... I've CAUGHT you again, you little slut! You're going to need some proper discipline... in the Principal's Office!
