

# Shower Release

After so many pee mp3s released I thought it important to make one in a bit of a modified fashion. Dominica style... This mp3 is going to make u peeeeee but in the shower. When you peeee, you trance and your pee and will are washed away down the drain in this intense very dominant MP3. A few precision sound effects and some balance and brainwave work has been done to the recording to enhance your experience... Taking a shower alone is never going to be the same again slave... Never.....

Length 23 min
