

The Cell 7

Breathe it in, Breathe in MY scent. MY scent will control you as you will be drawn to me. You simply cannot help yourself. We're going to do some nice DEEP breathing exercises. The effect it will have on you will be quite remarkable. I love how weak you become as you breathe out everything that is not Goddess Dominica. Breathing techniques have been used in for centuries and I have added a little twist to this technique to make it all My own... You know by now how I hunger for your blank obedient mind to worship, follow, and obey... Tied to a soft bed in a dark cell you have become My most willing yet bound slave. A warm vapor in the room mixed with My sweet sensual smell leaves you completely intoxicated and . BREATHE IT IN in and out. My drugs, My scent, My words, accosting your every sense... I take you yet again as My fingers roam down your body to your sex taking that which now belongs to ME melting your very will and sexual resistance away into puddles...
