

Unmentionables 1

Everybody has a secret. Something they don't talk about. Something... unmentionable. Mmmmm... yes... Dominica knows ALL about your secret collection. Of shiny stockings... garter belts... lacy panties... Even about that long, slim-waisted corset... the one you've been dreaming about, the one you've been dying to try on... You close the door to your room, and sit on the edge of the bed, sliding the satin panties up your smooth legs, pulling them tight over your hips, feeling them mold themselves onto your smooth, sexy bottom. You find yourself in a far-away place, a tiny place in your simple, little mind... It instantly grows, to FILL your mind, pushing all other thoughts aside. Looking at yourself in the mirror... The tight corset making your waist look so tiny... The smooth, silky stockings — the ones with the seams up the back — making your legs look so long... so gently rounded... so very sexy! You find yourself modeling for Me, your Mistress Dominica. Turning around to show off your smooth, round bottom... looking back at Me over your shoulder, wiggling your hips. You ache to show Me how you look in them. You crave to feel My hands caress your legs, up your nylon-covered thighs... up to your hot sex! And then what? Mmmmm... You know what happens, don't you girl? When you get your Mistress all hot and bothered. Peel the strap of that camisole down your shoulder, slut... you're going to find out right NOW!
