

Unmentionables 2

What undergarment is so deliciously feminine, so special... so wicked and taboo? Is it panty hose? Or a push-up bra? No... it's a corset! Yes... you have looked at old pictures in history books, fantasized over photos in sexy magazines and the internet... perhaps even secretly drooled over some actress in a movie. Gazing at the tiny, wasp waists. The long, satin bodices with lace filigree. And you have a secret longing to be squeezed into a corset yourself, don't you? Yes, I know you do... To look so pretty and feminine, with an hour-glass figure like a woman should have... That's okay, baby — your Mistress Dominica loves corsets too. And I'm going to lace you into a very special one — a magical corset, with special powers. Of course, it takes a while to put on a corset properly... giving Me plenty of time to play with your mind and body, while I slowly lace you up, and draw the strings tighter... and tighter...
