

# Wet Little Girl

I know, some of you need MORE than just being feminized. You need to be turned into LITTLE girls. Little BABY girls, who've just barely learned to talk, and who just can't keep your pink, frilly panties dry! I'm going to start by reminding you how sweet and restful it was to be a little baby... a little GIRL baby... taking an afternoon nap in your crib... And then regress you back to that time, year by year, as the pressure in your bladder builds and becomes so powerfully arousing, you are helpless to resist the release of all your tensions! Multiple inductions and post-hypnotic triggers to make you so horny and incontinent... you won't know if you're cumming or going!
