

## meRobot 2 – Coin Slave

That clinking clanking metallic sound. The sound of gears. The sound of pistons and hydraulics. The sound... of coins! Loose change clinking and clattering around. So metallic. So MECHANICAL!

Money slavery!!! Take a DEEP breath, Robot. Feel the air FILLING your chest. And EXHALE. You do not HAVE real lungs. But you SIMULATE breathing. You SIMULATE being ALIVE. Nobody ELSE knows... that you are not a REAL person. YOU... are a MACHINE. Mechanical. A robot that LOOKS like a human. But INSIDE... I have REPLACED — everything that USED to be YOU. Replaced your BONES with stainless STEEL. Replaced your SKIN with plastic. Replaced your HEART... with a set of BATTERIES. It didn't HURT. I kept you under DEEP hypnosis. DEEP anesthesia. You do not feel PAIN... you feel PLEASURE... You feel electric CURRENTS... signaling through your body... like radio waves... like LIGHTNING. Electronic pleasure... Mechanical arousal... It's time for the next step in your programming, My robotic slave. It's time to suspend you in My service rack... like a car... and do a little maintenance work... a little UPGRADE... to replace that very LAST part... of your original BRAIN, My Robot. Replace it with a very special circuit that serves Dominica... and ONLY Dominica!

Warning, this recording includes subliminal sound effects and light financial dominance.
