WritefagPuck here, the ever reclusive owner of this here doc, just wanting to say thanks to all the hardworking ponies who took that original shy pony file I bought and said "We can do better than this hunk of junk!" May you all trot with pride at your accomplishments, and know that you've helped many a poor human make a dream come true! Here's a shout out to PTFG, without whom I would have never been involved; NG/MK, GB, Syn, OOTN, Zephyr, and all the rest of you cooky pones, thank you!
