Weekly Pony Collab

mlp

Welcome to the Weekly Pony Collab.

Taking place on /mlp/, starting on Fridays and lasting seven days each. Ideally, each week will have it's own, designated pony - made and chosen by the anons of the thread. You are free to make as many ponies as you feel you can complete before the end of the week, but they must be conceptualized and designed from start to finish within that week.

The selected pony will represent the week and any other ponies made during this will feature as supporting cast outside of the fifty-two.

Guidelines

Out of the fifty-two ponies;

- Thirty-six of them are Earth Ponies.
- Twelve of them are Pegasi.
- Four of them are Unicorns.

Of those fifty-two ponies;

- Thirteen of them are colts and fillies - one of which will be a Unicorn
- Three of them are Elderly - one of each breed (Earth/Pegasus/Unicorn)
- The remaining thirty-six are mares and stallions
- There are thirty-nine females to thirteen males (3:1)

Creating new ponies;

- Anons should not submit art/designs of a pre-existing character.
- Avoid creating facsimiles of pre-existing characters if it can be helped.
- Nothing based on or resembling real life figures.
- Keep things simple.
- For artists working on the base design, keep the expression neutral so as not to influence decisions made on the characters background, attitude, etc. You are free to draw the pony with expressions to the side of it.

On **December 31st 2021** - which will be a Friday - we will hold a celebration thread and reflect on the year's worth of progress (or lack thereof in such a case).

Every week, from the start of New Year's Day - all the way to New Year's Eve - new ponies are made.

You can find the thread archive [here](#).

Each week, a new page will be added for Pony of the Thread.

You will find the pony index below.
