

A Beginner's Guide To Ponies

AND WHICH ONES YOU SHOULD FUCK

Why Fuck Ponies?

Your sexuality is **nothing to be ashamed of**. The fact is, as long as you're not *sexually assaulting* anyone, you should feel free to fuck **whoever** or **whatever** you want. And ponies are no exception.

Ponies are **cute, cuddly, and full of positive energy**. They love to *make you feel good*, and they'll do just about anything to do so. There's no need to fight it. The first step you need to take is **accepting the fact that you want to fuck a pony**.

Which Pony Is Right For Me?

No two ponies are the same. Just like humans, ponies all have unique characteristics, both **physical** and **social**, that appeal to everyone differently.

So what do you like in a sexual partner? Do you like them **energetic**? **Timid**? **Muscular**? **Curvy**? There's no wrong answer!

Now let's discuss each individual pony's characteristics. *Only then* can you decide which one you'd like to fuck.

Twilight Sparkle

Twilight Sparkle is the **princess of friendship**. She's **responsible**, intellectually **mature**, and she's literally **royalty**.

As a **seeker of knowledge**, her instinctive response to a problem is to do research and make a calculated, non-impulsive decision. Because of this, she's certainly what you'd call a **bookworm**, and spending a Saturday alone in the library is her idea of a day well spent.

As mature as she is intellectually, *she is rather inexperienced socially*. After all, if you spend every day studying, you're not going to have much time for parties and the like.

Twilight Sparkle: Pros

- Well educated
 - She probably owns a book about sucking cock
- Adorkable
 - Sometimes you can't beat the cuteness of an adorable nerd and her beckoning vagina
- She's the ruler of a kingdom
 - Bragging rights ain't bad

Twilight Sparkle: Cons

- No experience
 - She is a nerd, so to her, penises may only be a myth
- Worries about everything
 - She could decide that she no longer wants to fuck, while you're currently balls deep in her pony pussy, because she remembered she forgot to dust the pantry
- Not athletic
 - You don't stay in shape reading books all day. She ain't no physical specimen.

Rainbow Dash

Each of the main characters represents an *element of friendship*, and Rainbow Dash is the **element of loyalty**. She's **steadfast**, **confident**, and **dedicated**.

Rainbow is an **athlete**, which means she can become somewhat obsessed with reaching a personal goal. She's predisposed to **obsession**, and although loyal, she tends focus primarily on herself and her athletic pursuits.

Her mannerisms are **impulsive**, **aggressive**, and sometimes **obnoxious**. She has a **short temper**, which, depending on her anger's cause, can manifest itself in either a charming passion, or a childish tantrum.

Rainbow Dash: Pros

- Extremely fit
 - Ass so firm you could use it as a cutting board
- Confident
 - She's hot stuff and she knows it. Skip all the formalities and get to boning.
- She's pretty bro for a chick
 - She's the type of mare who will watch Die Hard and have a farting contest with you after you're done fucking

Rainbow Dash: Cons

- Self-centered lover
 - To her, giving her oral does not mean that you deserve oral
- Endurance athlete's body
 - She has the stick-like body of a prepubescent boy
- She's in better shape than you are
 - It's going to be embarrassing when you're out of breath after fifteen thrusts when she's just getting warmed up

Pinkie Pie

Pinkie Pie is the **element of laughter**. Her objective, first and foremost, is to make you laugh and smile. She's **silly, sporadic**, and unfailingly **energetic**.

She has dedicated her existence to two things: good **humor** and good **food**. In addition to working in the local bakery, she is the town's resident **party planner**. Long story short, the mare knows how to have fun.

Pinkie is a **wildcard**. She is extremely **unpredictable**, and she can sometimes temporarily go overboard in the heat of a moment, overlooking the unwillingness of those around her.

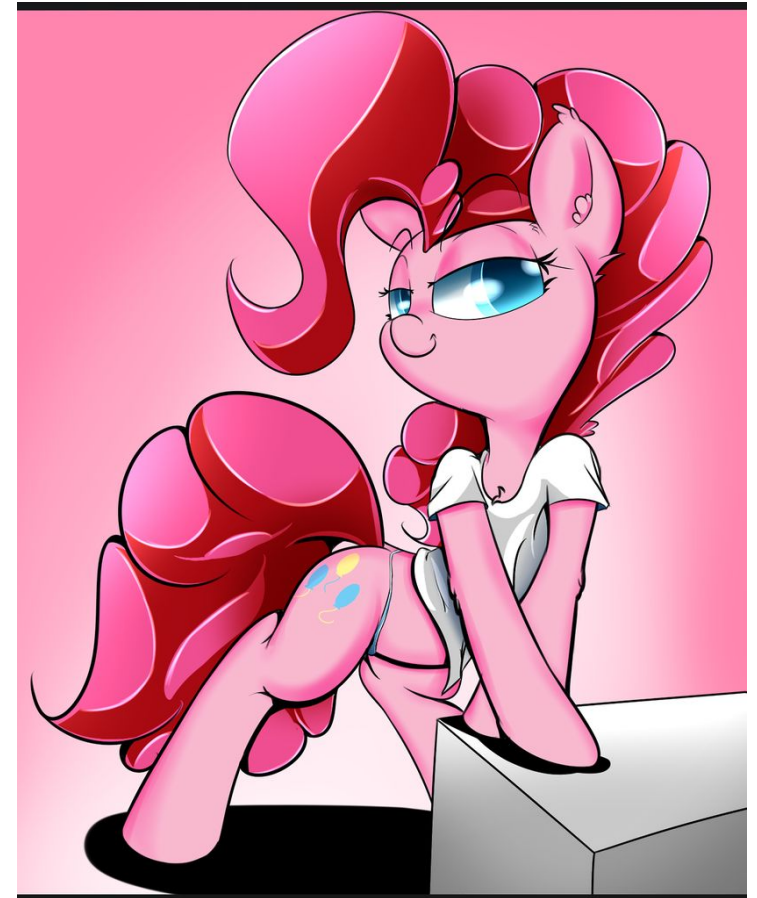

Pinkie Pie: Pros

- All the right junk in all the right places
 - Calories + female body = curvalicious
- Outwardly enthusiastic
 - You'll never wonder if she's enjoying herself. You'll know. Your neighbors will know.
- She's up for anything
 - She loves trying new things that might be fun. Like ass to mouth.

Pinkie Pie: Cons

- Probably eats a few too many sweets
 - If she's going to be on top, make sure you remember the safe word
- She has no limits, and will disregard yours
 - She will do butt stuff without asking you if you want to do butt stuff
- Childish
 - Although physically mature, expect some immature giggling and remarks that may ruin the mood

Applejack

Applejack is the **element of honesty**. She and her family make a living doing honest farm work on their orchard. She's **down-to-earth**, **dependable**, and extremely **hard working**.

Her **family** is indisputably the most important thing in Applejack's life. Playtime comes strictly after her family and her work. That's not to say that she's boring, but rather that she has her priorities and they're not moving.

Applejack comes from a very **traditional** background. Romance? Sure. Sex? Probably. Anything freaky? Well, let's just say that might take some convincing.

Applejack: Pros

- In prime physical condition
 - You don't know the definition of haunches until you've seen dat plot
- Steamy passion
 - If Applejack does something, she puts everything she has into it. Forget the rest of the world. It's just you, her, and fornication. That's southern hospitality, sugarcube.
- Great at communication
 - She'll tell you what she wants. She'll ask you what you want. You'll both get exactly what you want.

Applejack: Cons

- Traditional values
 - I don't wanna say you'll be having sex in missionary position for the sole purpose of reproduction, but you might just be having sex in missionary position for the sole purpose of reproduction.
- She's too tired for sex tonight
 - She worked all day. Wanna just watch a movie?
- Ooh, that sweat
 - When you have to run an orchard, hygiene may fall a little lower on the priority list.

Rarity

Rarity is the **element of generosity**. She values worldly possessions greatly, and determines her and her friends' happiness therefrom. She is **posh**, **lady-like**, and **vain**.

She owns a boutique and works as a **fashion designer** and **seamstress**. She aspires to one day become well-known and influential, so she tries to distance herself from anything that might get in the way of that. She's always trying to maintain an image.

Socially, Rarity is very **proper**. She will always be polite, and she will always uphold etiquette. Needless to say, it might be a bit difficult getting her to let loose.

Rarity: Pros

- Takes care of herself
 - Freshly washed and freshly shaven, guaranteed
- She's a romantic
 - The bedspread is her canvas, sex is her paint, and her body is her paintbrush.
- A lot of experience
 - I don't want to use the word *slut*, but let's just say she's taken her fair share of stuffings

Rarity: Cons

- High standards
 - She's fucked guys who are better than you
- No junk in her trunk
 - She's in the fashion industry. She's basically anorexic.
- Entitled brat
 - She thinks the world owes her something. As if she's too good to put your balls in her mouth.

Fluttershy

Fluttershy is the **element of kindness**. She's known for her unfailing tenderness towards all creatures, despite being rather bashful. She is **affectionate, mild-mannered, and moral**.

She makes a living *taking care of local animals*. She's been known to be able to use her kindness to tame even the most ferocious animals. Her soft voice and gentle nature is guaranteed to feel safe and invited.

Fluttershy's fatal flaw is her crippling **shyness**. When faced with an unfamiliar social situation, Fluttershy completely freezes in fear. Once she's your friend it becomes less of an issue, but getting to that point could be a challenge.

Fluttershy: Pros

- The cutest
 - You can't deny it. She's precious and you know you want to destroy that adorable innocence.
- Selfless
 - Your pleasure **comes** first.
- A gentle touch
 - Sometimes, ultra soft hooves giving an extra gentle handjob hits the spot

Fluttershy: Cons

- Autistic
 - Literally. If she can barely talk to the dude at the McDonalds' register, imagine how bad pillow talk would be.
- Prude
 - She probably doesn't know what her vagina is even for
- Crybaby
 - Fluttershy's the kind of mare who will cry after sex.

The Rest Is Up To You!

There you have it. You've been given the facts, and the only step that's left to take is to make a decision!

Hopefully this worked as a suitable introduction into the world of pony fucking. Best of luck on your venture as you go deeper into this fascinating world. You won't regret this!
