

The SGAP  
(SGaP General Art Project)  
Is a yearly Music/Art/Writing  
Compilation, created by fans  
Of SoGreatandPowerful  
<https://discord.gg/rZfKACHgTk>

The SGAP is created to bring together the community, once a year, to express our love for SGaP's music. Each year, a new song will be focused on, to be the source of inspiration for your submission. We are accepting submissions from **musicians, writers, and artists** of all types. As long as your submission is inspired by the year's selected song, then it will be accepted.

Yearly, we release all contributions as a compilation on [Bandcamp](#). Bandcamp is a service primarily for music, but text + art submissions are easily bundled into the release's zip file, which is free to download.

**Rules:**

1. No slurs, excessive vulgarity, gore, extreme content, etc.
2. Submissions should not be disparaging and should not include personal details relating to SGaP.
3. If your submission is not sent before the deadline, it will not be accepted.
4. Join the discord if you have any questions or want to discuss/collaborate with other people.
5. We are allowed to deny any submissions.
